Required Immunisation
As a Health and Safety pre-requisite only students who are certified to be immune from Hepatitis B can be allowed for clinical placements at Mater Dei Hospital. Accepted first year students should have completed a full course of Hepatitis B vaccination and submitted their relative lab report of their Seroconversion Titre to the Faculty Office by not later than the 30 November 2017.

Students who took the 3 doses of Hepatitis B vaccine in the past need to follow the procedure marked A, as their level of immunisation might be acceptable, depending on the result. Other students who did not take the 3 doses of Hepatitis B vaccine need to follow the procedure marked B and then follow the procedure marked A.

What is a SeroConversion Titre?
Please refer to the following link: http://www.cdc.gov/hepatitis/hbv/hbvfaq.htm

Procedure A
Students who took the 3 doses of Hepatitis B vaccine in the past need to follow this procedure:

1. Students should go to the designated area Health Centre for their locality from Monday to Friday from 08:00 to 17:00hrs or on Saturday from 08:00 to 13:00hrs. They should see a medical doctor and make a formal request and an appointment for Seroconversion Titre.
2. Those students who have not yet reached the age of 18 need to produce a letter of consent for Hepatitis B antibody level testing signed by the parent or guardian. The full name of the parent or guardian must be printed below the signature on the letter of consent.
3. Students should take with them the following documents to the Health Centre:
   a. the National Identity Card;
   b. the Immunization Record
   c. the Letter of Acceptance sent by the Registrar’s Office of the University of Malta; and
   d. Form A duly filled in.
4. It is extremely important that students adhere to the appointment given.
5. The Health Centre Staff will guide students as to when results should be collected from the respective Health Centre.
6. The vaccines are provided free of charge to all EU students accepted for one of the Courses leading to a health profession.
7. Non-EU students will be billed €11.65 by Mater Dei Hospital for the laboratory test.

Procedure B
Students who did not take the 3 doses of Hepatitis B vaccine in the past need to follow this procedure:
1. Students should go to the Floriana Health Centre from Monday to Friday from 08:00 to 13:30hrs.
2. Those students who have not yet reached the age of 18 need to produce a letter of consent for Hepatitis B vaccination signed by a parent or guardian. The full name of the parent or guardian must be printed below the signature on the letter of consent.
3. Students should take with them the following documents to the Floriana Health Centre:
   a. The National Identity Card;
   b. the Immunization Record;
   c. the Letter of Acceptance sent by the Registrar’s Office of the University of Malta; and
   d. Form B duly filled in.
4. The Immunisation Staff will evaluate the immunisation status and advice will be given on pending vaccines. Hepatitis B vaccine will be administered to those who require it. Post-vaccination seroconversion titre should be done 6-8 weeks after the last dose of the Hepatitis B vaccination course. For the post-vaccination seroconversion titre students need to follow Procedure A.
5. The vaccines are provided free of charge to all EU students accepted for one of the courses leading to a health profession.
6. Non-EU students can purchase the vaccine from a retail pharmacy close to the Floriana Health Centre in order to keep the temperature at a constant level. The vaccine will then be administered by the Immunisation staff at the Floriana Health Centre.

**Submission of Titre Results at the Faculty Office, Faculty of Health Sciences by 30 November 2017:**
