Grade Descriptors

Grade I

Candidate shows full understanding of the requirements of the questions and is able to respond coherently with evidence of both knowledge of text and insight. Arguments are well organized, relevant and consistent, reflected through an acceptable use of language.

Grade 5

Candidate shows adequate knowledge and understanding of text but response is not well-organized. There is some evidence of insight and ability to support arguments with textual references, but arguments are not always directly relevant and there is a tendency to narrate. Language is adequate for basic communication rather than for analytical comment.

Grade 7

Candidate shows evidence of poor knowledge and understanding of text, with a few exceptions, and is unable to deal with the requirements of the questions. There is haphazard or even careless organisation of question content with irrelevant information. Use of English (i.e. usage, syntax, spelling) is poor.
