

Marie Curie EST Fellowship

Euro-Ph.D. in Advanced Drug Delivery
School of Pharmacy and Pharmaceutical Sciences
University of Dublin, Trinity College

Duration: 1 Year contract

Dept/Faculty: School of Pharmacy and Pharmaceutical Sciences

Closing Date: Until position filled

Salary: approx. €21,000 (depending on status)

Expected start date: before October 2007

Post Summary

One Marie Curie Early Stage Research Training Fellowship is available funded by an EU 6th Framework project MEST CT-2004-504992.

Eligibility Criteria

Nationality

- The researcher must be a national of a Member State of the Community, of an Associated State or of a third country
- A researcher from a third country having legally resided or/and having had his/her main activity in the Community or in Associated State(s) for at least 4 years (in total) out of the last five years immediately prior to his/her appointment is treated as a national of the Member State or Associated State in which (s)he has resided for the longest period.

Mobility

- The researcher shall not be a national of a State in which the contractor's research team appointing him/her is located.

- In the case of a researcher holding more than one nationality, (s)he will be able to be hosted by a contractor located in the country of his/her nationality in which (s)he has not resided during the previous 5 years.
- At the time of appointment, the researcher may not have resided or carried out his/her main activity in the country of the contractor for more than 12 months in the 3 years immediately prior to his/her appointment. Short stays such as holidays are not taken into account.
- As an exception to the general rule, a researcher holding the nationality from a Member State or an Associated Candidate State can carry out his/her research training activities in his/her country of nationality if (s)he can provide evidence testifying that (s)he has legally resided and had his/her main activity in a third country for at least four of the last five years immediately prior to his/her appointment.

Qualifications and research experience

- The researcher must be in the first 4 years (full-time equivalent) of his/her research activity, including periods of research training, since gaining a university (or equivalent institution of higher education) degree giving him/her access to doctoral studies in the country in which it was obtained. The degree must entitle the holder to embark on doctoral studies without having to acquire any further qualifications.
- Researchers who have obtained a doctoral degree are not eligible, independently of the time taken to acquire it.

Duration

- The researcher can be involved under the project to benefit from the research training activities for a duration of 12 months.
- The researcher must devote him/herself full-time to his/her research training activities. Only for duly justified reasons associated with personal or family circumstances, may the researcher be allowed to devote him/herself part-time to his/her research training activities.
- The research training activities can be split in several stays not exceeding 36 months in total and not going beyond the project duration. The duration of each phase shall have significance for the research training activities and form a coherent part of them or be justified on grounds of family reasons of the researcher.

Content

- The research training activities must consist of activities within the field of Advanced Drug Delivery.

Application details

Candidates should submit a detailed Curriculum Vitae, to include a statement of research interests and the names of 2-3 referees.

Please provide this information to:

Dr. Carsten Ehrhardt
School of Pharmacy and Pharmaceutical Sciences
Trinity College Dublin
Dublin 2
Ireland
