University Students Participating in International Games or Competitions

University students who are chosen (or short-listed) to participate in official international games or competitions that are scheduled during the University’s examination periods (15th January to 31st January, 2015, 30th May to 30th June, 2015 and 1st September to 12th September, 2015) should request the Kunsill Malti għall-Isport to send an official letter to the Registrar indicating the period when they would be participating in games or competitions.

This request should be sent as early as possible and by not later than:

For January session: 21 November
For May/June session: 2 March
For September session: 10 July

If the information is received by these dates, the University will make every effort to ensure that examinations do not clash with the students’ athletic commitments.

Where practicable and to the extent possible, the University will cooperate in *ad hoc* arrangements for the administration of its examinations in venues where students involved in international games or competitions can take them under proper supervision. Where this is not possible, Senate will be requested to approve that the examinations are taken in September as a first sit.

In cases where students are informed of their participation very near to the date of the games or competitions, students are requested to write to the Registrar seeking Senate’s approval to sit for their examinations as a first sit.
