STUDENTS ADVISORY SERVICES

SAS offers personalized advice to prospective and current students and keeps Guidance Teachers in secondary schools informed on the various University courses and career prospects.
UP TO DATE ONLINE SERVICE

www.um.edu.mt/sas

The Students Advisory Service aims to provide prospective and current students at the University of Malta with the necessary information and advice in order to make informed and sensible choices. This is done through research, the provision of information and advisory services and the constant contact with fellow stakeholders.

The office integrates both public relations and an administrative function and provides assistance to students in the following areas:

- practical or personal issues related to career paths and courses of study within the local context
- establishment and maintenance of links with schools particularly those at the post-secondary levels
- assistance to the Registrar with enquiries relating to courses of study and the provision of information
- advice to prospective students and a vocationally related clientele.

The service operates in close liaison with the Counselling Service, the Admissions and Records Office and other offices of the Registrar.
