

Delete/Forget Wireless Network in Windows 8.x

Note: The instructions below will work with the latest windows updates installed. If you encounter issues when following this guide, please contact our [Helpdesk](#).

1. When you are within an eduroam network range, click the wireless icon  in the system tray.
2. Click the **eduroam** network and **right-click** to bring up more options. Select **Forget this network**.

To set-up **eduroam**, follow the guides available at:
