IM32 SYSTEMS OF KNOWLEDGE PROJECT

Dear Head of School/ Principal,

MATSEC would like to bring to the attention of May and September 2017 Systems of Knowledge private candidates that their project does not need formal approval by MATSEC. Candidates are reminded that they should have a tutor following their work and that their project should reflect the syllabus.

The new Systems of Knowledge syllabus will be first examined in 2018. However candidates who will be resitting their Systems of Knowledge examination will be allowed to have the project mark transferred from previous years as long as it conforms with the directions set in the syllabus.

Your co-operation is much appreciated.

Regards,

Dario Pirotta

Director
MATSEC Support Unit
