**Introducing a Great Opportunity**

Teaching is a rewarding profession through which you can really make a difference in people’s lives. Everybody remembers a teacher who cared, who readily helped us in our studies regardless of our level of attainment, who gave us practical advice on preparing for different jobs, who supported us in our personal life and who tried to make learning fun.

In order to join the teaching profession you must first complete an undergraduate degree in a subject which is taught, or that will be taught in the future, in our schools. This first degree may be followed through courses offered by University. Other qualifications will also be considered, including those achieved from other institutions, as long as they are equivalent to a first degree offered by the University.

Once you complete this first degree you may then apply to complete a Professional Master degree in Teaching and Learning (MTL), offered by the Faculty of Education.

**Course Details**

The MTL is a two-year full-time course, at Master level, which will enable graduates to teach at Primary and Secondary level, according to the area of specialisation chosen.

In October 2017, the course will be offered to prepare teachers for:

- Primary Education
- Ethics Education, Personal, Social & Career Development
- French, German, History, Italian, Maltese, Religious Education, Social Studies, Spanish
- Sciences [Biology, Chemistry and Physics], Mathematics, Geography
- Technical Design and Technology [Design & Technology, Graphical Communication, VET Engineering Technology], Business Education, Computing & IT [Computing ICT and VET IT]

The Faculty also plans to add other areas in teacher training in Vocational Education.

**Further Study and Work Opportunities**

Teaching is a career that can help you remain on a constant journey of discovery, which leads to self-improvement as you seek to upgrade your knowledge and skills, as well as meet learners from different backgrounds and with diverse needs.
Maximise Your Potential

Becoming a teacher is a source of pride, and this involves commitment and responsibility. The Faculty of Education is committed to providing quality teacher education and to prepare teachers to deal professionally with learners' needs within a changing local educational system.

Your interest in reading this far shows that teaching could be your ideal career path.
We encourage you to take the next step!
