BEACHES

Generally speaking, Malta's coastline is rocky and steep on the south side, while it is rocky and low lying on the north and eastern side. Most of the sandy beaches are situated either on the north western side of the island or in Gozo. Malta's beaches are small in size, with the largest shoreline just over 500 metres. Yet due to the islands' rugged terrain, many of these offer scenic attractions due to the islands' rugged landscape.

Adventure sports: including rock climbing, cycling, trekking available from various clubs. It is advisable to enquire at the Tourist Information Centres or at hotel reception. www.visitmalta.com/sports-and-activities

Car Hire: when driving a hired car please ensure that you adhere to the country's driving and parking regulations. An automatic CVA operated hourly charging meter is activated on entering Valletta.

Country walks: there are beautiful countryside walks to follow, but it is imperative to keep out of private property which is often indicated by rustic boundary walls. Country-side walk booklets are available in bookstores.

Diving: there are numerous diving schools in Malta and Gozo. Some of these are based in 4 or 5 star hotels often located near beaches.

www.pdsa.org.mt

Dress code: when visiting towns and especially churches do ensure that you are properly dressed so as not to offend public sentiments. It is not allowed to wear shorts or sleeveless tops when visiting churches. In towns, bare-chested males and scantily dressed ladies are regarded as unacceptably attired. Topless or nude bathing is prohibited on the Maltese Islands.

Driving: driving in the Maltese Islands is on the left hand side of the road. At junctions give way to the vehicle on your right hand side. Right of way is also given to the vehicle that reaches the traffic island first. As a pedestrian, always look right before crossing a street.

Events: Malta boasts of a vibrant and varied year round calendar of events, for details visit <http://www.visitmalta.com/en/events>

www.maltacultural.com

Excursions: when choosing your excursion to places of interest you will find that some tours may be cheaper, due to the fact that they do not include a licensed guide or museum entry fees. Always check beforehand what is included in the price.

Karozzin: horse drawn cabby trips can be the highlight of the morning. It is however advisable to confirm the price per person for the agreed trip with a map in hand before boarding the cab.

Parking attendants: a small tip to the parker is appropriate when parking at designated spots (the equivalent of €0.70 would be sufficient). Some areas in Malta and Gozo have a restricted parking time limit and a meter card needs to be prominently visible, from the windscreen, for traffic wardens.

Public Transport: when using public transport, whenever possible pay the bus driver with exact change to speed up the process. When possible it is advisable to pre purchase tickets from vending machines located at the Valletta and Bugibba bus termini, Malta International airport arrivals lounge, Sliema ferries and authorised resellers.

Water Sports Centres: are often based at 4 or 5 star hotels located near beaches. For more information visit: www.asaofmalta.org

Shopping: shopping centres can be found in all the major towns and cities especially at Valletta, in Republic Str. and Merchant Str.; Sliema along Tower Road and the Strand; Paola town centre; Hamrun along High Str.; Mosta around the town centre; Buġibba and St Paul's Bay; Victoria (Rabat) in Gozo. All the above shopping centres are normally open from Mon to Fri during mornings and evenings. However, in tourist areas, shops are open throughout the day, Mon-Sat from 09.00 till 19.00 and sometimes even later.

Smoking: smoking inside public buildings is prohibited. It is a legal offence to smoke inside restaurants, buses, cinemas, airport and other public buildings.

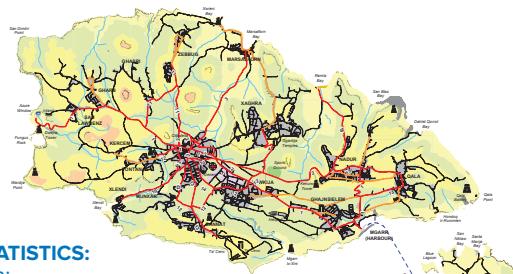

Street salespersons: when approached in the street by salespersons offering their products or services, be sure to identify exactly who they represent. Do not sign or pay for any service or product that you are not entirely sure to have fully understood or appreciated.

Sun screen: it is always wise to use anti-UV cream and wear a hat to protect your skin from the sun's rays. It is best to avoid direct sun exposure between 11.00 and 15.00 especially in summer.

Swim, snorkel and dive safely: ensure that you are not conducting any of these activities in areas exposed to maritime traffic. Some areas may be dangerous due to undercurrents. When visiting coastal areas in strong seas or winds, it is advisable to keep at a safe distance away from the rocky edges. Freak waves do occur.

Taxis: white taxis have a taxi meter and can be hired from designated areas. However, a fixed payment price is in force prior to taking a taxi from the Airport's arrival lounge or the Valletta Cruise Liner Terminal. Elsewhere, it is advisable to ask beforehand for an approximate fare.
