

## **Day 1: Tuesday 4th October**

### **SYP 01: *Alex Baldacchino***

#### **International Society of Addiction Medicine Global Expert Network**

1. Alex Baldacchino- ISAM's Mandate and Potential to Develop a Global Expert Survey Infrastructure as an ISAM Product
2. Marc Potenza- World Addiction Medicine Reports 2022: Development of a Global Expert Survey Infrastructure and Longitudinal Survey in Addiction Medicine
3. Arash Khojasteh Zonoozi and Fateme Sadat Abolghasemi - ISAM-GEN Structure and Expert Contact Points: From Individuals to Addiction Societies and Treatment Centers
4. Preethy Kathiresan and Atul Ambekar- ISAM-GEN Pilot Survey: Global Survey on Treatment Service Provision for Opioid Use Disorder
5. Hamed Ekhtiari - ISAM-GEN's Future Path: How to Contribute to the Upcoming Surveys?

### **SYP 02: *Sophia Achab***

#### **Restructuring Addiction Treatment Services in Post COVID Era, integrating digital health**

1. Mirana Michelle Randriambelonoro - Title: The potential of information technologies to facilitate addiction treatment services
2. Anja Busse - Quality and accessibility of drug use disorder treatment service provision – lessons learnt from the post COVID era
3. Michael P. Schaub - From guided self-help to blended addiction treatment for cannabis and illicit drug use disorders
4. Susanna Galea-Singer - Enhancing addiction services' interventions utilizing digital platform-Project TMAT 3  
  
disorders. This presentation will describe a protocol for testing, adoption and spread of digital approaches to enhance addiction services' interventions
5. Joe Tay - Re-thinking collaborative risk assessment and management in providing virtual addiction care: A state of the art review of the literature.

### **SYM 03:** *Lee Chang*

#### **The Impact of Covid-19 on National Addictions Management Services' care delivery in Singapore**

1. Lee Cheng, - Title: NAMS services during the pandemic
2. Mevlyn Zhang, Singapore - Title: Pandemic Impacts on Youth and Adolescent behavioural addiction
3. Bhavinagayatri Thinnagaran - Working with Families through pandemic
4. Nora Loh - Shaping the "new normal" into inpatient's new model of care

### **SYM 04:** *Cornelis De Jong*

#### **Training Needs in Addiction Medicine: An international perspective in 2013 and 2022**

1. Gabrielle Welle-Strand - A global survey on Addiction Medicine training in 31 countries
2. Cornelis A.J. DeJong, - Design of the 2022 ISAM AM-TNA global survey
3. Roshan Bhad - Procedure for the ISAM AM-TNA global survey
4. Enjeline Hanafi - The online questionnaire for the ISAM AM-TNA global survey
5. Shalini Arunogiri - Preliminary results of the ISAM AM-TNA global survey

### **SYM 05:** *Christos Kouimtsidis*

#### **Techniques and Treatments**

1. Seon Young Park - Review of Cognitive Behavioral Therapy Programs on Gaming/Internet Use Disorder: Focusing on CBT Techniques Used.
2. Therese K Killeen- Mindfulness based relapse prevention adapted to address trauma in women with comorbid PTSD and SUD
3. Christine Gibson- Somatic Therapies in the Treatment of Trauma Underlying Addictive Behaviors
4. Tone Aurora Pley- Effect of intranasal oxytocin in the treatment of benzodiazepine withdrawal, an ongoing pilot double-blind RCT.

### **SYP 6 -** *Haong Huy Vu*

#### **Research to Practice: Strategies to get the science into the education (addiction studies courses) and to practice**

1. Translating evidence into practice in addiction medicine: The role and experience of universities in Africa, Dr. Beatrice Kathungu, Regional Coordinator, Africa
2. Experiences of science to practice: Addiction studies in Thailand higher education Dr. Prapapun Chucharoen, Mahidol University, ICUDDR Regional Coordinator Asia-Pacific

3. Implementation of Substance Abuse Prevention and Treatment Programs in HEIs: Challenges and Opportunities, Salman Shazad, PhD, Assoc Professor, University of Karachi

4. University Postgraduate training on addictions at Spain: The experience of the University of Barcelona, Xavier Ferrer, Psy D, Director, and Fran Calvo, Ph. D. Management and direction team, Master on addictions, University of Barcelona

Discussant: Kevin P. Mulvey, PhD, Executive Director, ICUDDR

### *SYP7 - Mike Orland*

#### **Working during COVID**

1. Pamela Portelli and Olga Bogolyubova - The Impact of COVID-19 Pandemic on Drug Users in Malta: a Qualitative Analysis

2. Ruth Cassar Bonanno, Monique DeBrincat, Vanessa Kurz, Rachel Bezzina, Abigail Cortis, Antonella Mizzi - Navigating through uncharted territory; The lived experience of psychotherapeutic professionals working with clients struggling with addiction during a global pandemic.

3. Romina Baldwin ; Roberta Bellia ; Zvetlana Cassar ; William Hayman ; Antonella Mizzi ; Lucienne Perera Vega ; Karen Quintano - Surviving Addiction: Fostering Resilience and Wellbeing in Substance Users Online During The Pandemic

4. Aaron Azzopardi, Jeanelle Boffa, Lisa Bonaci, Gillian Busuttil, Sefora Mercieca, Mike Orland, Shamik Sheth - Supported remotely: Service Users' experiences of teleservices in community-based addiction treatment during Covid-19 .

### *SYP08: Venkata Lakshmi Narasimha*

#### **Substance Use Disorders and Behavioral Addictions During the COVID-19 Pandemic: Perspective from early-career addiction medicine professionals**

1. Venkata Lakshmi Narasimha: Effect of COVID-19 pandemic on alcohol use disorders
2. Sophia Achab: Medical information flow management to support ECPAM during first weeks of covid-19 pandemic, a case study from Switzerland.
3. Laura Orsolini: Italian trends in Problematic Video Gaming Use and Internet pathological

### *SYP09: Susanna Galea Singer*

#### **Pathways to specialization in addiction medicine/psychiatry in Europe: Challenges & solutions**

1. Cornelis A.J. De Jong - Pathways to addiction specialization: SWOT analysis.
2. Gabrielle Welle-Strand - Update of the Full Norwegian Specialty in Addiction Medicine
3. Anna Maria Vella - The challenges to addiction specialization in Malta
4. Geert Dom - Specialization in addiction psychiatry in Europe
5. Carmel Clancy - Pathways for addiction specialization for nurses

**SYP10:** *Mehdi Farokhnia*

**Recent advances in the neuroscience of addiction: From circuits to treatments**

1. Hamed Ekhtiari - Introduction
2. Serenella Tolomeo: Protracted abstinence in males with an opioid use disorder: Partial recovery of nucleus accumbens function
3. Parnian Rafei: Cannabis and cognitive impairments: recent evidence and implications of the future-oriented aspects of cognition
4. Mehdi Farokhnia: Exploring the crosstalk between alcohol use and glucagon-like peptide-1 (GLP1): An emerging pharmacotherapeutic target?
5. Katrine Melby: Intranasal oxytocin on alcohol withdrawal, craving and relapse: Experiences from a double blind RCT

Antonio Verdejo-García: Closing remarks

**SYP11:** *Christos Kouimtsidis*

**Trauma, PTSD and Substance Use Disorders**

1. Tzeferakos Georgios - Early trauma experienced by People Who Use Drugs and the relationship with quality of life and severity of addiction.
2. Kathleen Brady - Trauma-informed SUD care.
3. Paola Rosca - Screening and early interventions for mental health, trauma and PTSD in reception centres for refugees and migrants.

**SYP12:** *Gregory Bunt*

**The Fentanyl crisis: lessons from north america and eastern europe**

1. Pouya Azar - Canada's Response to the Fentanyl Crisis
2. Darius Jokubonis - Lithuania's Response to the Fentanyl Crisis
3. John Mariani - Medication Assisted Treatment with Fentanyl Use
4. Gregory Bunt - Clinical Challenges with Fentanyl for Treatment Programs

5. Carol J. Weiss - Global Significance and Implications of the Fentanyl Epidemic

**SYP 13:** *Ebiti N.W. - African symposium*

**Assessing Complex Challenges to Effective Prevention Treatment and Policy Response to the Methamphetamine use surge in Nigeria**

Ebiti N.W<sup>1</sup>., Ike J.O<sup>2</sup>., James B.O<sup>3</sup>

1. Challenges to Demand Reduction Strategies (Prevention, Sensitization and Advocacy) in response to Methamphetamine Use Surge in Nigeria
2. Evolution of Supply Reduction Policies and Strategies in response to Methamphetamine Use Surge in Nigeria
3. Epidemiology and Treatment considerations in the Management of Methamphetamine Use disorders in Nigeria

**SYP 14** *Alex Baldacchino*

**Treatment for opioids**

1. Ida Halvorsen Brenna - Treatment outcomes among patients with opioid use disorder choosing extended-release naltrexone in a naturalistic study setting in Norway.
2. Kristin Klemmetsby Solli- Changes in anxiety, depression and insomnia in opioid-dependent individuals during a 3-year treatment study with extended-release naltrexone.
3. Anne Marciuch - A qualitative study of patients' experiences of continued treatment with extended-release naltrexone

**Day 2: Wednesday 5th October**

**SYP15:** *Hossein Mohaddses Ardabili*

**Should we choose the road less travelled? Challenges and opportunities in pursuing a career in addiction medicine**

1. Hossein Mohaddses Ardabili- Similar networks relating medical specialists and undergraduates: what we can learn?
2. Jenna Butner- How to grab global support and funding opportunities for the project?
3. Rohsan Bhad- The ISAM-NExT global project for undergraduate mentorships; foundations and future directions
4. Gianluca Bezzina- Why undergraduates? Challenges and opportunities of working dyads of post/undergraduates.

**SYP16:** *Marilyn Clark*

**Prescription Drugs**

1. Sarah Haines - Opioid-related policy changes: Perspectives from people who use opioids to manage chronic non-cancer pain

2. Moses Camilleri- Management of non-medical use of prescription drugs

3. Rosalind Gittins- Exploring friends and family perspectives on over the counter and prescription only medication misuse during COVID-19

4. Rosalind Gittins- Examining the Landscape of Overdose Detection and Responder Alert Technologies

5. Jari Tiihonen - Real-world effectiveness of pharmacological treatments in methamphetamine/amphetamine use disorders in a nation-wide Swedish cohort of 13,965 patients

**SYP17:** *Anna Maria Vella*

### **Addictions and the use of the internet**

1. Duncan Veneziani- Examining Attentional Bias to Unsolicited Sexual Stimuli and its Potential Association with Internet Pornography Use.

2. Melissa Mifsud- Exploring the reality of working with young persons experiencing Problematic Internet Use (PIU), who are followed by the Youth Services within the Directorate for Alternative Care (Children and Youth).

3. Joana Cristina Pereira - Are mobile apps effective against tobacco dependence?

**SYP18:** *Marc Potenza*

### **Behavioral Addictions in a Changing International World**

1. Marc Potenza: Screen media activity, problematic use of the internet, and mental health: Brain- behavior, developmental and pandemic-related considerations

2. Zsolt Demetrovics: International efforts to understand behavioural addictions

3. Yatan Pal Singh Balhara: Screen time among college students and its impact on physical activity and sleep pattern: During the pandemic and following resumption of on-campus educational activities

4. Tania Moretta: The influence of conditioned social media-related cues on individuals with problematic use of social media

*SYP 19: Susanna Galea Singer*

**Are Addiction specialists fit for the future? Equipping addiction specialists for the era of Artificial Intelligence and Machine Learning**

1. David Kulp - The ethics of utilizing AI & ML in addiction treatment
2. Susanna Galea-Singer - Applying AI and ML in Addiction Treatment: Review of the literature
3. Alex Baldacchino - What could the future like? How can organizations support the integration of digitalization in addiction education and training and addiction treatment.
4. Roman Gabrhelik - The challenge presented by AI & ML for addiction training and education

*SYP 20: Christos Kouimtsidis*

**Treatment for opioids**

1. Lars Tanum- Psychosocial characteristics of opioid dependent individuals in Norway seeking treatment with extended release naltrexone instead of opioid agonists.
2. Farid Juya- COMT and OPRM1 genotype variation among patients with opioid dependence in Norway: Prevalence and relation to pain intensity.
3. Gabriel Bastien- The impact of depressive symptoms on methadone and buprenorphine/naloxone outcomes in people with prescription opioid use disorder: results from a pragmatic randomized controlled trial

*SYP 20a : Marc Galanter*

**The Role of Twelve Step Programs as Resources for Substance Use Disorder Recovery: Demonstration and Discussion**

1. Marc Galanter: The Role of Twelve Step Programs as Resources for Substance Use Disorder Recovery
2. Donald Kurth: A live illustration of the conduct of the experience of typical Twelve Step group meetings to be presented by members of ISAM
3. Gregory Bunt: Structure of a treatment system employing Twelve Step programs for forensic clients

*SYP21: Anikita Chattopadhyay*

**The Cannabis Debate: Background, current status and implications of recent changes in scheduling**

1. Ankita Chattopadhyay - The cannabis debate
2. Tanmay Joshi - Beneficial effects of cannabis and medicinal cannabis

3. Tanmay Joshi - Adverse effects, dependence, dual diagnosis
4. Kamini Verma - Status of cannabis worldwide: Medical use, decriminalisation, legalisation-
5. Ankita Chattopadhyay- Scheduling process and implications of rescheduling of cannabis.

### **SYP22:** *Brian Hurley*

#### **Advancing Recovery for People with Addiction Throughout the Healthcare System**

1. Brian Hurley: Treatment gap Integrating Addiction Treatment into Primary Care, Mental Health Care, Hospital Care, and into Care Settings for People Who are Incarcerated
2. Gregory Bunt: Integration of Primary Medical and Behavioral Health Care in the Treatment of Addictive Disorders: An International Perspective
3. William F. Haning : Advancing Recovery through Psychotherapy and Non-Medication Support for People with Addiction
4. Kathleen Brady: Moderator of Addiction Treatment Throughout the Healthcare System

### **SYP23:** *Shalini Arunogiri*

#### **Stigma, advocacy and training in addiction medicine**

1. Cornelis de Jong: Introduction, discussing stigma and the role in addiction training.
2. Leendert van Rijn, Raisa Thybaut: Addiction: an old (un) acquaintance. Three case studies to start a broader discussion on the effect of stigma.
3. Lucas Pinxten: Relationship between the addiction professionals' Training Needs and Attitudes
4. Barbara Broers: Double stigma: how to address substance use in people with intellectual disabilities?
5. Shalini Arunogiri: Rethink Addiction: advocacy efforts through an Australian national anti-stigma campaign

### **SYP24:** *Christos Kouimtsidis*

#### **Civil Society Participation and Policy development implementation and evaluation**

1. Atul Ambekar - Challenges in the meaningful involvement of civil society in drug policies
2. Katrin Schiffer - The Right to sit at the Table - Meaningful Civil Society Involvement in the area of Drug Policy
3. Susanna Galea-Singer - Civil society organizations and the delivery of healthcare for addiction problems.
4. Jane Mounteney - Customers, critics and colleagues – EMCDDA's partnerships with civil society in the monitoring of drugs in Europe

### **SYP 25:** *Victoria Manning*

#### **Neuroscience-informed Behavioural Interventions**

1. Victoria Manning - Smartphone-delivered personalised Approach Bias Modification to reduce harmful alcohol use in the community
2. Eric Garland - Mindfulness-Oriented Recovery Enhancement Remediate Hedonic Dysregulation in Opioid Misuse and Addiction
3. Parnian Rafei - Neuroscience-informed Addiction Prevention: An RDoC based Framework
4. Brian Kiluk- Digital cognitive-behavioural interventions for substance use

**SYP 26:** *Gregory Bunt*

**Treatment for the addictions: distinguishing effective treatment from substandard care - an international perspective**

1. Anja Busse - International Standards of Drug Use Treatment
2. Haynes Louise- Using Peer Support Specialists in a Randomized Clinical Trial of Opioid Overdose Risk Reduction: Challenges and Opportunities.
3. Garrett McGovern - Ireland's First Medically Supervised injecting centre - NIMBY or lack of political will?
4. Karin Merethe Waleur - Post-treatment efficacy of extended-release naltrexone (XR-NTX) regarding sustained opioid abstinence and continued psychosocial recovery process

**SYP 27 -** *Moses Camilleri*

**Alcohol use disorder**

1.  
Anna Powell - Recovery of neuropsychological function following abstinence from alcohol in individuals diagnosed with an Alcohol Use Disorder: systematic review of longitudinal studies among adults
2. Anna Powell- Young, drunk, and fast: the paradoxical effects of hazardous drinking on cognitive performance in younger adults
3. Olena Zhabenko, Igor V Linskiy, Valeriy N Kuzminov, Alexandr I Minko, Beate Sievertsen, Lars Kiefer, Meike Gmeinwieser, Deirdre A Conroy - Understanding recovering alcohol dependent patients response to insomnia

## Day 3: Thursday 6th October

### SYP28: Helena Hansen

#### **The Role of Joy in Recovery**

1. Eric Peyron: Introduction – Spinoza, joy and recovery
2. Tomo Shirasaka: Joy of recovery in Japan: fun, peers and self-esteem
3. Fatima Elomari: Emotion based education for recovery in Morocco
4. Sarah Namirembe: The role of joy in recovery within the Ugandan context
5. Helena Hansen: Community arts, connection and meaning in addiction treatment
6. Georges Brousse: Discussion – what can we learn from joy in addiction medicine?

### SYP29: Gianluca Bezzina

#### **Opioid and Methadone**

1. An Economic Analysis for providing buprenorphine free of charge at SMOPU for 100 users.  
Authors: Matthew Attard and Dr Anna Maria Vella
2. Examination of Drug-Related Deaths in Scotland - Impact of Opioid and Other Drugs on Cardiovascular Disease Pathology  
  
Authors: Abdulmalik Zuhair Arab( 1), Aldo Alberto Conti (2), Fleur Davey (3), Alexander Mario Baldacchino (1,2), Faisal Khan (1)
3. Annabel Mead - Youth and the opioid overdose crises in Canada
4. Franciska Brezan -Prolonged dam-take-home in times of covid-19: harm reduction or increase?

### SYP30: Joe Tay Wee Teck

#### **PPIG - Telemedicine Mediated Medication Assisted Treatment: 48 months later**

1. Shalini Arunogiri : Setting the scene for telemedicine implementation during a pandemic: A personal reflection.
2. Joe Tay Wee Teck: Applying an Implementation Science lens to the Telemedicine - Mediated Medication Assisted Treatment evidence base.
3. Dr Jenna Butner: Telemedicine Mediated Medication Assisted Treatment through the lens of health equity: Experiences from the US
4. Susanna Galea-Singer- Incorporating patient perspectives, lived and living experiences into TMAT services design.

**SYP31:** *Hamed Ekhtiari*

**Technological Advances in addiction treatment**

1. Hamed Ekhtiari -Neuromodulation Strategies for Addiction Treatment
2. Salvatore Campanella -The utility of cognitive ERPs in the management of alcohol use disorder
3. Robert Leeman -Digital Technologies for Secondary Prevention of Addictive Behaviors
4. Antonio Verdejo-Garcia - Digital Technologies for Individualized

**SYP 32 - Anja Busse**

**Promising perspectives for pharmacological treatment of stimulant use disorders - Safety and effectiveness studies in community-based settings**

1. Anja Busse, Global trends of stimulant use and stimulant use disorders - The need for effective and scalable treatments for stimulant use disorders
2. Vitor Tardelli & Thiago Fidalgo, Current state of evidence for agonist-based treatment for stimulants - Time to implement medical treatment?
3. Peter Blanken, The potential efficacy of sustained-release dexamphetamine to reduce (crack) cocaine use and improve health in people with cocaine use disorder in agonist maintenance treatment for their comorbid opioid use disorder – Randomised controlled trials in the Netherlands.
4. Nadine Ezard, Safety and tolerability of oral lisdexamfetamine in adults with methamphetamine dependence
5. Anja Busse, What next? Future directions for effectiveness and safety trials for agonist-treatments for stimulant dependence

**SYP 33- Anna Maria Vella**

**Stigma and Barriers, SUD and Motherhood**

1. Madaline Walsh - Pregnancy and Parenting as a Motivator for Change in the Treatment of Substance Use Disorder - A Review of New York City's Young Mothers Program.
2. Anna Maria Vella and Marie Claire Micallef Cuccardi - Mothers with a Substance Use Disorder

3. Verma Kamini, Mandal Piyali, Ambekar Atul and Kamini Aiims Perceived stigma in female opioid users and their spouses: A cross sectional comparative study

4. Steve Libreri- Internal evaluation of bias displayed by CP professionals when dealing with cases presenting substance misuse

**SYP34:** *Nicholas Lintzeris*

**Long acting depot buprenorphine (LADB): addressing the next set of clinical research challenge**

1. Antti Mikkonen and Nicholas Lintzeris - How can I transfer from methadone to LADB?
2. Nicholas Lintzeris - Pain outcomes in patients treated with LADB.
3. Bernadette Hard - LADB seems to work well in 'stable' patients, but does it work in 'unstable' patients?
4. Michelle Lofwall - Is LADB safe in pregnancy? "Will my baby get withdrawal?"
5. Victoria Hayes "What can I expect to experience when I stop LADB treatment?"

**SYP35:** *Christos Kouintsidis*

**Evaluation of treatment innovations necessitated by COVID -19 pandemic; importance and good examples.**

1. Bernadette Pauly; Managed Alcohol Programs: Evolution and Evidence in a Canadian Context.
2. Stelios Gkiouzepas - The impact of Covid-19 Pandemic on the everyday life of ARGO Therapeutic Program for Drug-Addicted Individuals.
3. Roshan Bhad,; Jaswant Jangra, Deepak, M; Deepak Yadac; Ravindra Rao Opioid addiction treatment services during COVID 19 pandemic- Experience of Tele Medication Assisted Treatment (TMAT) for delivery of Methadone Maintenance Treatment (MMT) from a Community Drug Treatment Clinic in Delhi, India
4. Joe Tay Wee Teck - What happens when you don't have to say no? The impact of removing barriers to addiction treatment during the pandemic in Scotland.

**SYP36:** *Shalini Arunogiri*

**ISAM Oceania Affiliate Societies - Real time prescription monitoring in action: reflections**

## **from Australia**

1. Shalini Arunogiri - Setting the scene: an overview of implementation of RTPM in Australia
2. Suzanne Nielsen - Unintended consequences of RTPM

### **SYP37: *Shyam Kottilil***

#### **Cannabinoids for Pain Management + Cannabis related research**

1. Gregory Bunt - The Role of Addiction Psychiatrist in Medicinal Cannabinoids
2. Stephanie Coronado-Montoya- Giving young adults with psychosis voice and choice in cannabis interventions research by using discrete choice experiments: the SPICE study.
3. Nicholas.Lintzeris - What is the role for medicinal cannabis products in the treatment of cannabis use disorder?
4. Shyam Kottilil: Viral Infections and Substance abuse

### **SYP 38: *Jareth Grima***

#### **Prevention**

1. Jareth Grima, Amy Taylor and Stephanie Mizzi Cascun - Substance Misuse Prevention Programmes: The Maltese Context.
2. Jareth Grima, Stephanie Mizzi Cascun and Erika Sciberras - A Substance Misuse Policy in the Workplace: Senior Leadership Teams' Attitudes
3. Jareth Grima and Sheryl Spiteri - The Role of Workplace Policy in Addressing Employees' Substance Misuse Difficulties

### **SYP 39: *Joe Tonna***

#### **Addictions and Mental Health**

1. Kelly Ridley - Rolling the dice: Mental Health Applications for Problem Gambling in Australia
2. Michael Schaub- Effectiveness of a web-based self-help tool to reduce problem gambling: A randomized controlled trial
3. Timothy D. Brewerton - Food addiction and comorbidity: a review

4. Jane E. Joseph - Oxytocin attenuates brain response and connectivity in implicit emotion face processing in cocaine use disorder

*SYP40: Joe Tay Wee Teck*

### **The role of Digital Health Interventions (DHI) in Addiction Services**

1. Alberto Oteo Perez: A systematic review of Overdose Detection and Alert Technology.
2. Roz Gittens: A functional typology of Overdose Detection and Alert Technology
3. Marica Ferri: Developing a functional taxonomy for Digital Health Interventions in Addiction Services
4. Joe Tay Wee Teck: Applying typologies & taxonomies- case studies from the ODART and DADE projects

**Day 4: Friday 7th October**

*SYP41: Susanna Galea - Singer*

## **Education and Research**

1. Hoang Huy Vu - Research to Practice: Strategies to get the science into the education (addiction studies courses) and to practice
2. Cary L Hopkins Eyles and Carly M Searcy, - Developing an addictions program and research center: Implementation support.
3. Kevin P. Mulvey - What is ICUDDR? Meet your International Consortium of Universities for Drug Demand Reduction.

### **SYP42: *Atul Ambekar***

#### **ISAM Asian Affiliated societies**

##### **Treatment for Opioid use disorders in South and Southeast Asia: An update**

1. Atul Ambekar - The characteristics of opioid use epidemic in South and Southeast Asia
2. Helal Uddin Ahmed -Opioid Agonist Treatment in Bangladesh: An update
3. Ravindra Rao - Opioid Agonist Treatment in India: Initial experience with mobile Methadone Van.
4. Nanda Myo Aung Wan -Opioid Agonist Treatment in Myanmar: An update
5. Saroj Prasad Ojha - Opioid Agonist Treatment in Nepal: An update
6. Chalawat Inpa Opioid Agonist Treatment in Thailand: An update

### **SYP43: *Alberto Oteo***

#### **South American Symposium**

##### **Research in therapeutic contexts using health technologies**

1. Schifani, Carolina - Reminders to increase adherence in a multicomponent outpatient treatment.
2. Roldán, Mariela - Pharmacological adherence and perceived usefulness of reminders for adherence to psychopharmacological treatment in patients with addictive disorders.
3. Gigena Parker - One-year evaluation of the implementation of the APPAGA program (virtual reality modality) for smoking cessation in Córdoba, Argentina.

### **SYP44: *Mario Miccoli***

#### **Assessing Heroin Use Disorder patients**

1. Subtyping Patients With Heroin Addiction At Treatment

A. Poli and I. Maremmani

*Maremmani, Icro, AUCNS, Pietrasanta, Italia, EU*

*Poli, Andrea, University of Pisa, Pisa, Italia, EU*

2. The TALS – Reduced Form: An Inventory For Assessing The Heroin Post-Traumatic Stress Disorder Spectrum (H/PTSD-S)

L. Tumminello, I. Maremmani and M. Miccoli

*Maremmani, Icro, AUCNS, Pietrasanta, Italia, EU Miccoli, Mario, University of Pisa, Pisa, Italia,*

*EU Maremmani, Icro, AU-CNS, Pietrasanta, Italia, EU*

3. An Inventory For Assessing The Behavioural Covariates Of Craving In Heroin Use Disorder Patients

F. Della Rocca and I. Maremmani

*Maremmani, Icro, AUCNS, Pietrasanta, Italia, EU*

*Della Rocca, Filippo, University of Pisa, Pisa, Italia*

#### **SYP45: Ravindra Rao**

##### **Substance use in Indian Prisons: Magnitude of the problem and solutions**

1. Preethy Kathiresan: The crossroads of substance use and prisons
2. Ravindra Rao: Are Indian prisons immune from substance use?: Findings from a nationwide survey.
3. Atul Ambekar: Substance use in Indian prisons: what can be done?

#### **SYP46: Shalini Arunogiri**

##### **Train-ee Spotting: Addiction training, workforce mapping and future-proofing in Australia and New Zealand**

1. Enrico Cementon and Vicky Phan: Addiction psychiatry training in Australia and New Zealand - past, present, future
2. Nicholas Lintzeris: Background and context: addiction physician training
3. Hester Wilson: Background and context: General practitioners training in addiction medicine
4. Nicholas Lintzeris, Hester Wilson and Shalini Arunogiri: Where have all the trainees gone? Results of a workforce mapping survey across addiction medicine and discussion of workforce planning priorities
