Dear students,

Welcome to the Department of Dance Studies in the School of Performing Arts at the University of Malta. We hope you will enjoy your course.

Remember that this area of studies synthesises theory and practice in such ways that theory underpins practice and practice illuminates theory. We have designed the course so that study-units provide an integrated learning experience and are sufficiently flexible to provide choice related to your personal career progression. One of the most important things is that you become increasingly independent as learners, and this means that

- a) you must concentrate on your time management skills, and
- b) you must use your tutors effectively.

These programmes mark a step towards the formation of a group of Maltese and international dancers and choreographers who will contribute to the cultivation of Malta's own community of dance scholars and dance artist practitioners, and a new generation of European artists. We thank you for your trust in us, and any feedback that you will forward us in order to help us support you and make improvements as we go along.

Bachelor of Arts (Honours) in Dance Studies

Course information

Course title	Bachelor of Arts (Honours) in Dance Studies
Course code	UBAHDCSFT
Postnominal	B.A. (Hons)(Melit.)
Level of qualification	First Cycle
National Qualifications Framework level	Level 6
Duration	3 Years
Mode of attendance	Full-time
Total ECTS credits	180
Coordinator	Lucia Piquero Alvarez
Delivered by	<u>Faculty of Arts</u>

The B.A. and B.A.(Hons) are the Faculty's staple undergraduate degrees. They differ from each other mainly in that the B.A. is spread equally over two areas of study, whereas the B.A.(Hons) focuses on a single area, with a secondary area as subsidiary. All undergraduate students follow two areas of study during the first year, but those who wish and qualify to proceed to the honours track continue with one area of study, in addition to a limited number of credits in the subsidiary area to be taken during the second year. Undergraduates may choose a combination of any two areas of study, with some restriction imposed only by practical time-table requirements. The duration of the degree courses is three years. Honours students write research-based dissertations or long essays in the final stages of their studies. The weighting of the course components in establishing the final grade is biased in favour of the later parts of the course, on the principle that the fairest evaluation of a student is at the point of exit.

The percentage mark shall be used for the purpose of calculating the student's progress and for the award classification

Descriptor	Mark Range	Grade
Work displaying exceptional quality Exceptional performance showing comprehensive and critical understanding, and application of the subject matter. Evidence of extensive additional reading/research/work.	90%- 100%	A+
Work displaying comprehensive and critical understanding Superior performance showing a comprehensive and critical understanding of the subject matter. Evidence of considerable additional reading/research/work.	80%- 89%	A
Work displaying comprehensive understanding Performance showing a very good working knowledge of the subject matter. Evidence of a moderate amount of additional reading/research/work.	75%- 79%	B+
Work displaying substantial understanding Above-average performance, with a working knowledge of the subject matter. Evidence of some additional reading/research/work.	70%- 74%	B

Health and Safety

Emergency phone number in Malta is **112**. There is a first aid kit in the hallway, fire extinguishers in the hallway, and ice packs in the fridge-freezer. The fire assembly point is across the street from the Home Trends entrance. The Dance Studies Studios address is JPR Buildings, Triq taż-Żwejt, San Ġwann SGN 3000, Malta. Studio users are responsible for helping to keep the premises secure by keeping doors closed and ensuring appropriate lockup procedures. All visitors must be accompanied. Any health or safety issues noted should be reported to a member of staff.

Participation

Every participant is responsible for his physical condition during the course. It is necessary to notify tutors in advance about limitations and to adjust the participation with the leader of the group beforehand. A list of health services is available on the bulletin board.

The structure of our course implies active participation in the whole programme, and attendance is obligatory to course activities. If a student misses a session, the student **must** communicate this with the session leader by email. Absences may be excused with a note from a doctor or physiotherapist, which you should present to your lecturer. Students should sign in to classes attended, noting that absences can impact your assessment, and your ability to sit examinations. For more information see 'Attendance', item 40, p. 14 of the General Regulations for University Undergraduate Awards: http://www.um.edu.mt/data/assets/pdf_file/0005/47390/harmonisedregs-09.pdf

Students who need to request extensions for exams must do this via the following form, prior to the assessment: <http://www.um.edu.mt/performingarts/extension-request->

form. This must be approved prior to the exam, or the work will be considered late or incomplete. If assignments are handed in late or incomplete without prior approval, the lecturer has the right not to accept the assignment, or to deduct marks.

Participation in the Dance Studies course additionally requires participation in performing arts activities in Malta. Students should actively seek opportunities to see work of all genres, and should plan / budget for this as much as possible.

Professionalism

The Dance Studies department is committed to professionalism and integrity through all its activities. As

we work, we all support each other. In order to secure the dignity and personal development of all

students and staff, it is the policy of the department and the University of Malta to expressly forbid any

forms of harassment. As used here, harassment means any unwelcome behaviour that makes a person feel humiliated, intimidated or offended, or that could reasonably be taken as objectionable. Harassment is prohibited on the ground of sex, gender, sexual orientation, race, age, racial or linguistic origin, financial situation, creed, pregnancy, health, family status, political convictions, disability or citizenship. See the University's guidelines on this topic:

https://www.um.edu.mt/_data/assets/pdf_file/0018/210645/harassmentbullyingpolicy.pdf.

Remember that respect for others and diplomacy are key elements in any professional communication.

Etiquette

Students and staff should use University of Malta email accounts for all university-related correspondence and email should be checked daily.

In class

- During training participants should take off all sharp or voluminous jewellery. Hair should be tied back, and up if long.
- Clothing for training should be clean and comfortable, and preferably not very loose so that you can receive appropriate corrections.

- Under no circumstances should shoes be worn in the studio, bare feet, ballet shoes, or socks only.
- Maintain bodily hygiene, and care for any foot fungus appropriately.
- No chewing gum
- Avoid food or hot drinks inside the studios.
- Mobile phones should be turned to silent during course sessions, and should not be carried into technique class, other than with lecturer's permission.

Your colleagues come from different countries and speak different languages. Especially in discussions, think before you speak, formulate your question clearly and succinctly. Speak in English as much as possible.

Be respectful of the study areas, and keep socialising to the sitting area.

The inside of all premises is a non-smoking area.

Students are in charge of their personal belongings. Please keep them in the lockers and changing rooms and away from the common areas.

Students should knock, and wait to be called in, before entering the staff room.

Do your part to help keep the studios clean and tidy; if it is needed, offer to sweep a floor, help change a water bottle, or empty the recycling.

Academic Mentors

At the start of your course you will be allocated an academic mentor. Your academic mentor is there as a point of contact should you need help or advice with any aspect of your studies or your experience on the course. In order to keep in regular contact, your academic mentor will schedule a one-to-one tutorial with you each semester, although you can request additional tutorials if needed – just ask. Where possible you will have the same academic mentor for the duration of your course.

Your academic mentor is there to help you:

- reflect on your academic progress and manage your own learning
- access any support you might require
- find solutions to any queries you have
- make your time at University of Malta an enjoyable and productive one

Before attending an academic mentor meeting it is advisable to take time to reflect on your studies and identify any concerns or difficulties you might wish to discuss, or questions you need answering.

Tutorials

In addition to lectures, tutorials are offered within the tutor contact time made available for most study units. Tutorials form an essential part of units such as Individual Dance Project, and Dissertation. For other study units tutorials are not compulsory, but are strongly recommended. Students are required to document dissertation tutorials with a Supervision Report Sheet, available from the Departmental Administrator.
