# Personal Protective Equipment (PPE)

## SCOPE

This booklet is a guide to assist employees in the choice of PPE according to their trade. However instructions and other code of practices, which indicate the use of other additional equipment are also to be observed. Those who fail to wear the appropriate Personal Protective Equipment are liable to disciplinary action as per Collective Agreement 2002 –2005, Art.9.5.1.

## DEFINITION OF PERSONAL PROTECTIVE EQUIPMENT

Any device or appliance designed to be worn or held by an individual for protection against one or more health and safety hazards.

A unit constituted by several devices or appliances, which have been integrally combined by the manufacturer for the protection of an individual against one or more potential simultaneous risks.

A protective device or appliance combined, separably or inseparably with personal non-protective equipment worn or held by an individual for the execution of a specific activity.

Interchangeable PPE components, which are essential to its satisfactory functioning and used exclusively for such equipment.

### It excludes:-

- Ordinary clothing.
- Equipment worn by emergency and rescue services.
- Equipment worn by the police and other public order agencies.
- PPE for road transport (safety belts).
- Sports equipment.
- Self-defence or deterrent equipment.
- Bleepers and other hazard warning equipment.

## PPE FOR THE JOB CAN SAVE WORKERS' LIVES

A worker who is well protected through wearing the appropriate safety clothing/apparel reduces the possibility of being involved in an accident and also reduces the severity of such an accident.
