##### (a) *Investments in Development Projects*

Investments in Development Projects are made from funds emanating from the following sources:

###### (i) *The Government of Malta*

Funds received from the Government of Malta are invested by way of equity participation and as loan capital in local companies for account of the Government;

###### (ii) *Malta Development Corporation*

These investments are made on the Corporation's account from its own funds.

##### (b) *Valuation of Investments*

The Corporation holds a first general hypothecation on the company's assets together with a special privilege on the company's building as security for this loan.

The provision made in respect of the investments emanating from the Government funds is charged to the Government and is shown as a deduction from these funds.

The provision made in respect of the investments made from the Corporation's funds is charged to the Income and Expenditure Account.

(i) Interest on loans is treated on an accrual basis;
