"Managing People in Malta brings together a broad spectrum of practical knowledge, research and theory about human resource management and development in Malta. It carries a richness of insights, experiences and theoretical debate about developments in Malta that should prove to be an interesting learning tool as well as a benchmark for many organisations.... This publication is truly a valuable resource tool that fills a gap in tracing the development of Malta's economy and in the sharing of experiences and knowledge amongst human resources professionals".

Ms Helga Ellul
President, Foundation for Human Resources
Development - Malta (FHRD)
