

# Il-Merill

The ornithological journal of BirdLife Malta

No. 33

2017

*Il-Merill* is the ornithological journal of **BirdLife Malta**. It serves as a medium for the publication of articles and short notes dealing with any aspect of ornithology having a bearing on the Maltese Islands and the Mediterranean. It also carries systematic lists of birds recorded in the Maltese Islands, rarities reports as well as bird ringing reports.

Articles and short notes for publication should be addressed to:

**The Editor**

BirdLife Malta

57/28 Marina Court, Abate Rigord Street, Ta' Xbiex XBX 1120, Malta

**Advice and instructions to contributors**

The Editor welcomes articles and short notes for publication. Information contained in the contribution should be original and based on personal research. Papers should be concise and factual, taking full account of previous literature and avoiding repetition as much as possible. Opinions should be based on adequate evidence. Authors are encouraged to submit their work to other ornithologists for critical assessment and comment prior to submission. Authors of major articles are required to include an abstract of their article of up to 120 words. Apart from the author's name, the name of university/institute/museum and/or home address, telephone number and email address are also required. The Editorial Board does not undertake to return rejected manuscripts.

Contributions should be submitted preferably by email, to:

**info@birdlifemalta.org**

Referees may be used where appropriate and all submissions are reviewed by *Il-Merill* Editorial Board.

Textual references must follow the format in the following examples:

Bibby, C.J. 1981. Wintering bitterns in Britain. *British Birds* 74: 1-10.

Stettenheim, P. 1972. The integument of birds. In *Avian Biology*, D.S. Farner & King, J.R. eds., pp 2-54, Academic Press, London.

---

**BIRDLIFE MALTA** was founded as the Malta Ornithological Society (MOS) in 1962 to work for the protection and study of birds and their habitats in Malta. **BIRDLIFE MALTA** is a partner of **BirdLife International** and it is the oldest and largest environmental NGO in the country. Among its commitments, the organisation coordinates bird studies in Malta. It also runs the **Valletta Bird Ringing Scheme**, which is a member of **EURING**.

**BIRDLIFE MALTA** publishes a quarterly magazine *Bird's Eye View* for its members. It has a junior section Klabb Huttaf and a youth section Falko with their own activities and a bimonthly magazine *Il-Huttafa*. **BIRDLIFE MALTA** manages three nature reserves – **Ghadira**, **Simar** and **Salina** – and is a joint partner in the **FORESTA 2000** afforestation project.

**Membership**

**Single Adult (one person 18 years and over) €20.00**

**Adult Couple (2 adults at same address) €24.00**

**Family membership (one or two adults and all children under 18 living at same address) €29.00**

**Child/Youth member (under 18) €10.00**

**Overseas membership (up to 2 adults living at same address overseas) €28.00**

**Visit [www.birdlifemalta.org](http://www.birdlifemalta.org) to become a member or renew your membership.**

## Editorial note

### Fraud in Ornithology

An excellent article entitled "*What the eye doesn't see: the prevalence of fraud in ornithology*" by Andrew H.J. Harrop, J. Martin Collinson and Tim Melling, appeared in *British Birds* Vol. 105 pp.236-257 (May 2012).

Its abstract reads: "*There is a tendency to see examples of fraud in ornithology as rare aberrations. This paper outlines some known and suspected historical examples of fraud, and argues that fraud of one kind or another has occurred more or less consistently, if uncommonly, in ornithology. Although most of the examples discussed are from Britain, it is likely that similar examples could be found in the archives of many nations. It is also highly likely that small-scale fraud continues today and is something that the ornithological community should be aware of. In particular, this has implications for the level of proof required by those assessing records of rarities.*"

The authors outline some of their reasons "*for believing that the scale of the problem has perhaps been underestimated or (latterly) even denied*" and emphasize that "*there is evidence to suggest that fraud continues to the present day, and that the lessons should not be forgotten.*"

They then write on "*The psychology of fraud – motivation and opportunity*". Amongst various motives, which in some cases have been financial, the authors state categorically that probably the most common motivation for fraud, particularly where the sighting and reporting of rarities are concerned, "*is the desire for recognition among peers or rivals*". They add that "*Photographs alone are no longer considered proof in the birding community, since they can be manipulated and their associated EXIF data (embedded details about equipment used and date/time of image capture) tampered with. Sometimes fraud may be fuelled by rivalry, such that sightings are embellished or even fabricated to compete with rivals' sightings.*"

The authors write at length about "*Pranks, hoaxes and fraud*"; "*Fraud in early natural history*"; "*The Hasting rarities*"; "*Taxidermy*"; and "*Scientific fraud*" amongst several other topics. Under the topic "*Modern field ornithology*" the authors state that in the light of what birders know about the history of fraud one would think "*that modern field ornithology should be relatively free from it. The evidence, however, suggests that the conclusion would be premature.*"

Under the topic "*Manipulation of descriptions*" the authors write: "*In the most extreme cases, this may involve the complete fabrication of a rarity record, with submission of a description based on field-guide accounts*" and may also involve the embellishment of descriptions with "*the inclusion of photographs taken elsewhere, to 'corroborate' the sighting*". They also give various several examples of fraud by some birders and state that "*Fraud using photographs is perhaps the easiest to attempt*" adding that "*EXIF data are a key component of the validation of rarity photographs but can be modified using freely available software.*" They also stated that "*It seems that taking digital images abroad then claiming that they were taken in Britain is becoming the modern equivalent of importing specimens then claiming that they were obtained in Britain - a twenty-first century incarnation of 'what's hit is history.'*"

In our view, the latter quotation is a fine example of what has happened, and is still happening here, with the frequent underhand illegal importation of many dead carcasses or skins of birds from various countries and then claimed to have been recorded in Malta. Some have also appeared in print. In some cases we seem to be going back, and in some instances dishonestly, to those days when a mounted bird in a private collection represents unquestionable proof.

## RINGING REPORT FOR 2006 TO 2016

Compiled by

**Mark Gauci, John J. Borg and Joe Sultana**

This report covers the ringing activities of the BirdLife Malta Bird Ringing Scheme for the years 2006 to 2016. During the years under review, the licensed ringers were: John Attard Montalto, Martin Austad, Ian Balzan, John J. Borg, Denis Cachia, Victor Cilia, Charles Coleiro, Jean Paul Farrugia, Nicholas Galea, Raymond Galea, Charles Gauci, Mario V. Gauci, Mark Gauci, John Grech, Emanuel Mallia, Joseph M. Mangion, Benjamin Metzger, Glenn Micallef, Patrick Sammut, Joe Sultana, Nadia Tschovikov, Justin Vassallo, and Adin Vella. Throughout the period under review several foreign ringers were granted temporary local ringing licenses to assist in fieldwork mainly related to seabird studies and bird ringing on Comino.

### EURING

Throughout the period under review the BirdLife Malta ringing scheme remained a full member of EURING, with BirdLife Malta hosting the biannual EURING general assembly in Malta in November 2011. The ringing group was also represented in Hungary in August 2007, in Italy in September 2009 and in Spain in September 2015. In occasion of the 2015 general assembly the BirdLife Malta ringing scheme gave a presentation about the 50 years of ringing which were celebrated in 2015. Malta was also in the news again when EURING celebrated the 10 millionth entry into its European Databank with this bird being a Swallow *Hirundo rustica* ringed in Malta on the 16<sup>th</sup> of April 2011 and controlled in the Czech Republic in June of the same year.

### RINGING TOTALS

The ringing totals for the years 2006 to 2016 are shown in table 1, along with the totals for the whole period of the BirdLife Malta Bird Ringing Scheme, covering the period 1965 to 2016.

Year	Number of Birds	Number of Species
2006	15,377	106
2007	12,241	102
2008	11,399	98
2009	12,365	97
2010	11,673	103
2011	14,454	100
2012	18,499	103
2013	28,595	109
2014	18,306	97
2015	15,439	109
2016	17,819	108
Grand total 1965 – 2016	586,567	223 + 2 hybrids

**Table 1 Ringing totals for the years 2006 - 2016**

For the period of 2006 to 2016 a total of 176,164 birds, representing 173 species were ringed. Of these, 24 species were new to the ringing list namely, **Cattle Egret, Grey Heron, Purple Heron, Marsh Harrier, Montagu's Harrier, Black-winged Stilt, European Golden Plover, Dotterel, Black Tern, Long-eared Owl, Pallid Swift, European Roller, Lesser Kestrel, Blue Tit, Great Tit, Mountain Chiffchaff, Menetries's Warbler, Moltoni's Warbler, Red-flanked Bluetail, Atlas Flycatcher, Moussier's Redstart, Great Grey Shrike, Pine Bunting, and Laughing Dove.** Additionally during the period under review a number of very scarce migrants or vagrants were also ringed. These include the 4<sup>th</sup> **Baillon's Crake**, the 2<sup>nd</sup> and 3<sup>rd</sup> **Marsh Sandpiper**, the 2<sup>nd</sup> **Barn Owl**, the 2<sup>nd</sup> and 3<sup>rd</sup> **Pallas's Leaf Warbler**, the 5<sup>th</sup>, 6<sup>th</sup>, 7<sup>th</sup> and 8<sup>th</sup> **Dusky Warbler**, the 3<sup>rd</sup> **Barred Warbler**, the 5<sup>th</sup> **Western Orphean Warbler**, the 4<sup>th</sup> **Paddyfield Warbler** and the 7<sup>th</sup> **Isabelline Wheatear**.

As can be evidenced from the ringing totals, the ringing status of some species changed drastically. Clear examples of this are the **Common Swift** and the **Pallid Swift** with birds ringed regularly from 2009 onwards when the species started breeding locally. Other species like the **European Bee-eater** and **Yellow-browed Warbler** showed an increase in numbers ringed as a result of their increase in European distribution. The increase in **Yelkouan Shearwaters** ringed came as a result of the various EU LIFE projects administered by BirdLife Malta in connection with the species.

#### **RINGING SITES**

The main ringing sites in the 10 year period were Għadira Nature Reserve, Simar Nature Reserve, Rabat (M), Buskett Bird Sanctuary, Salina Bird Sanctuary, Ta' Gajdoru (G), Żurrieq, Tarġa Gap (Mosta) and Mtaħleb. Additionally, bird ringing was carried out annually on the island of Comino in the period mid-April to mid-May and then again mid-October to first week of November. Annual visits to Filfla were also undertaken and intensified as part of BirdLife Malta's EU-funded studies on seabirds. As in past years, the plateau of Filfla was also visited annually with the aim of ringing Yellow-legged Gull chicks. A number of new accessible breeding sites for Yelkouan and Scopoli's Shearwaters were also identified and monitored regularly.

EURING NUMBER	MALTA SPECIES LIST	Total ringed 1965 to 2005	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016	Total ringed 1965 to 2016

**RINGING RECOVERIES**

Key to symbols and terms used in the recovery list.

**Arrangement of entry**

Recoveries are arranged by species and within species usually by date of the recovery letter. Ringing details are given on the first line and recovery data on the second.

**Ring number**

A ring in italics indicates that the ring has been returned and verified.

**Age code**

**1** pullus; young bird ringed in the nest. A number in brackets beside this age code indicates brood size

**2** fully grown; year of hatching quite unknown

**3** definitely hatched during current calendar year

**3J** as in 3, but bird still partly or totally in juvenile body plumage

**4** hatched before current calendar year - exact year unknown

**5** definitely hatched during last calendar year

**Sex**

**M** male

**F** female

**Date of recovery**

Where this is unknown the date of the reporting letter is given instead and is shown in brackets. A 00 in the date indicates that the exact day or month are unknown.

**Manner of recovery**

**v** caught or trapped, and released with ring (controlled)

**+** shot or killed by man

**x** found dead or dying

**xA** found long dead

**( )** caught or trapped alive and not released, or released but with ring removed

**B** breeding when recovered

**C** recovered at colony

**R** recovered in roost

**S** sight record (colour ring)

**/?/** manner of recovery unknown

**FOREIGN RINGED BIRDS RECOVERED IN MALTA**

**Storm-petrel** *Hydrobates pelagicus*

**SELECTED RETRAPS 2006 – 2016**

This section deals with a selected number of interesting retraps which were reported by ringers during the period between 2006-2016. Retraps are ringed birds recaptured at the same locality where they were originally ringed. These are mainly birds which are residents, breeding or winter visitors. Occasionally they may also be migrants using the same migratory route and the same resting/feeding areas in the following years. Selected retraps are presented below by species in the categories mentioned above. Ringing and retrap details are given in the following order: **Ring number, Age/Sex, Ringing Date, Locality and Remarks** (giving the time of years and months between the ringing and retrap dates. In the case of winter visitors giving the number of winters after ringing date). Age and sex codes are the same as used in the previous section for the recoveries.

**RESIDENTS****Moorhen** *Gallinula chloropus*

**LESSER CRESTED TERN *THALASSEUS BENGALENSIS* PROJECT – LIBYA 2006-2012**

The breeding population of the Lesser Crested Tern *Thalasseus bengalensis emigratus* is found exclusively in Libya, on the two coastal islands of Gara and Elba and at one wetland on the mainland coast in Benghazi. A ringing programme was conducted from 2006–2012 to improve knowledge of the species' migration to wintering quarters in West Africa. A total of 1,354 nestlings were ringed using BirdLife Malta metal rings and colour rings provided by ISPRA (Italy). Of these, 64 were recovered along their flyway and in their wintering range, representing 6.9% of birds ringed with both colour and metal rings. The list below presents 48 interesting recoveries.

The project was initiated by the Libyan Environment General Authority in coordination with the Regional Activity Centre for Specially Protected Areas set up by the Mediterranean Action Plan (UNEP) and involved participants from BirdLife Malta, the Istituto Superiore per la Protezione e la Ricerca Ambientale (Italy), the Biological Station of the Tour du Valat (France), Les Amis des Oiseaux (Tunisia), and Al Fateh University (Libya). The participants from BirdLife Malta (Joe Sultana and John J. Borg) also trained their Libyan counterparts in bird ringing.

**RECOVERIES OF LESSER CRESTED TERNS RINGED IN LIBYA. ALL RECOVERIES WERE OBSERVED UNLESS STATED OTHERWISE**

## MALTA RARITIES AND RECORDS COMMITTEE – MALTA

### 2ND REPORT

#### Introduction

This is the second report of the Malta Rarities and Records Committee (MRRC) covering the years 2011 to 2015. The first report, which covered the years 2000 to 2010, appeared in II-Merill (2010) pages 47-54. This report reviews six committee meetings which were held at the National Museum of Natural History on 03.02.2011, 02.02.2012, 07.11.2012, 20.02.2014, 29.01.2015 and 02.02.2016. Discussions and decisions on some of the submitted records were also carried out online between the officials and committee members when appropriate.

The members serving on the Committee were: Raymond Galea (Chairman), Edward Bonavia (Secretary), John J. Borg (representing the National Museum of Natural History), and Ian Balzan; Denis Cachia; Caldon Mercieca; and Joe Sultana as members. Raymond Vella also served as member from 2011-2013. The Committee sought the advice of international experts before taking a decision on some of the records.

During the Committee Meeting held on 20<sup>th</sup> of February 2014 it was decided that the official name for the Rarities Committee should be the Malta Rarities and Records Committee (MRRC). It was also decided that apart from discussing records of rarities, the MRRC should:

- (a) Keep and update regularly the official Bird Species list of Malta
- (b) Review any new or rare breeding records
- (c) Discuss records at sub-species level where possible
- (d) Take into account the deliberation of bird records in Malta

It was also agreed that the MRRC should function under the auspices of BirdLife Malta, while retaining a representative of the National Museum of Natural History as long as the member holding this post is well versed in birds and ornithology.

#### Regulations

The regulations which appeared in the first report were retained except for point seven which was replaced as follows:

***The first three records of a rarity should be substantiated by photographs, video films or sound recordings. In exceptional cases, a field description by at least two experienced observers might suffice.***

#### Species requiring a description by the Malta Rarities and Records Committee

Ideally all records of very scarce species should be submitted to the MRRC with a field description and, when available, with a photograph. Species which have been recorded less than 20 times in the Islands, require a description. However, there are some species listed below that, in spite of being recorded more than 20 times, still require a description to be officially accepted as these are very difficult to identify in the field.

The following is the updated list of species that require a description:

Bean Goose *Anser fabalis*  
White-fronted Goose *Anser albifrons*  
Red-breasted Goose *Branta ruficollis*  
Ruddy Shelduck *Tadorna ferruginea*  
Blue-winged Teal *Anas discors*  
Marbled Duck *Marmaronetta angustirostris*  
Red-crested Pochard *Netta rufina*  
Tufted Duck *Aythya fuligula*  
Greater Scaup *Aythya marila*  
Common Scoter *Melanitta nigra*  
Common Goldeneye *Bucephala clangula*  
Smew *Mergellus albellus*  
Goosander *Mergus merganser*  
White-headed Duck *Oxyura leucocephala*  
Red-throated Diver *Gavia stellata*  
Sooty Shearwater *Puffinus griseus*

Manx Shearwater *Puffinus puffinus*  
Balearic Shearwater *Puffinus mauretanicus*  
Leach's Storm-petrel *Oceanodroma leucorhoa*  
Shag *Phalacrocorax aristotelis*  
Pygmy Cormorant *Phalacrocorax pygmeus*  
White Pelican *Pelecanus onocrotalus*  
Western Reef Egret *Egretta gularis*  
Red Kite *Milvus milvus*  
White-tailed Eagle *Haliaeetus albicilla*  
Griffon Vulture *Gyps fulvus*  
Long-legged Buzzard *Buteo rufinus*  
Rough-legged Buzzard *Buteo lagopus*  
Golden Eagle *Aquila chrysaetos*  
Eastern Imperial Eagle *Aquila heliaca*  
Baillon's Crake *Zapornia pusilla*  
Striped Crake *Aenigmatolimnas marginalis*  
Allen's Gallinule *Porphyrio alleni*  
Western Swamphen *Porphyrio porphyrio*  
Red-knobbed Coot *Fulica cristata*  
Demoiselle Crane *Grus virgo*  
Little Bustard *Tetrax tetrax*  
Houbara Bustard *Chlamydotis undulata*  
Great Bustard *Otis tarda*  
Pacific Golden Plover *Pluvialis fulva*  
Spur-winged Lapwing *Vanellus spinosus*  
Sociable Lapwing *Vanellus gregarius*  
White-tailed Lapwing *Vanellus leucurus*  
Caspian Plover *Anarhynchus asiaticus*  
Greater Sand Plover *Anarhynchus leschenaultii*  
Upland Sandpiper *Bartramia longicauda*  
Slender-billed Curlew *Numenius tenuirostris*  
Red Knot *Calidris canutus*  
Broad-billed Sandpiper *Calidris falcinellus*  
Purple Sandpiper *Calidris maritima*  
Buff-breasted Sandpiper *Calidris subruficollis*  
Pectoral Sandpiper *Calidris melanotos*  
Red-necked Phalarope *Phalaropus lobatus*  
Grey Phalarope *Phalaropus fulicarius*  
Terek Sandpiper *Xenus cinereus*  
Long-billed Dowitcher *Limnodromus scolopaceus*  
Arctic Skua *Stercorarius parasiticus*  
Long-tailed Skua *Stercorarius longicaudus*  
Puffin *Fratercula arctica*  
Razorbill *Alca torda*  
Little Auk *Alle alle*  
Common Guillemot *Uria aalge*  
Lesser Crested Tern *Sterna bengalensis*  
Arctic Tern *Sterna paradisaea*  
Roseate Tern *Sterna dougallii*  
Great Black-headed Gull *Larus ichthyaetus*  
Glaucous Gull *Larus hyperboreus*  
Herring Gull *Larus argentatus*  
Black-bellied Sandgrouse *Pterocles orientalis*  
Pin-tailed Sandgrouse *Pterocles alchata*  
Laughing Dove *Streptopelia senegalensis*  
Little Owl *Athene noctua*  
Red-necked Nightjar *Caprimulgus ruficollis*  
Egyptian Nightjar *Caprimulgus aegyptius*  
White-throated Needletail *Hirundapus caudacutus*  
White-rumped Swift *Apus caffer*  
Little Swift *Apus affinis*  
Blue-cheeked Bee-eater *Merops persicus*  
American Kestrel *Falco sparverius*  
Sooty Falcon *Falco concolor*  
Lanner Falcon *Falco biarmicus*  
Barbary Falcon *Falco pelegrinoides*  
Red-eyed Vireo *Vireo olivaceus*  
Isabelline Shrike *Lanius isabellinus*  
Great Grey Shrike *Lanius excubitor*  
Southern Grey Shrike *Lanius meridionalis*  
Masked Shrike *Lanius nubicus*  
Jackdaw *Corvus monedula*  
Rook *Corvus frugilegus*  
Carrion Crow *Corvus corone*  
Hooded Crow *Corvus cornix*

Common Raven *Corvus corax*  
Blue Tit *Cyanistes caeruleus*  
Great Tit *Parus major*  
Hoopoe Lark *Alaemon alaudipes*  
Bar-tailed Desert Lark *Ammomanes cinctura*  
White-winged Lark *Alauda leucoptera*  
Crested Lark *Galerida cristata*  
Shore Lark *Eremophila alpestris*  
Temminck's Lark *Eremophila bilopha*  
Black Lark *Melanocorypha yeltoniensis*  
Dupont's Lark *Chersophilus duponti*  
Lesser Short-toed Lark *Alaudala rufescens*  
Greenish Warbler *Phylloscopus trochiloides*  
Arctic Warbler *Phylloscopus borealis*  
Pallas's Leaf Warbler *Phylloscopus proregulus*  
Radde's Warbler *Phylloscopus schwarzi*  
Dusky Warbler *Phylloscopus fuscatus*  
Iberian Chiffchaff *Phylloscopus ibericus*  
Mountain Chiffchaff *Phylloscopus sindianus*  
African Desert Warbler *Sylvia deserti*  
Barred Warbler *Sylvia nisoria*  
Western Orphean Warbler *Sylvia hortensis*  
Eastern Orphean Warbler *Sylvia crassirostris*  
Tristram's Warbler *Sylvia deserticola*  
Ménétries's Warbler *Sylvia mystacea*  
Rüppell's Warbler *Sylvia rueppelli*  
Marmora's Warbler *Sylvia sarda*  
Grasshopper Warbler *Locustella naevia*  
River Warbler *Locustella fluviatilis*  
Eastern Olivaceous Warbler *Iduna pallida*  
Western Olivaceous Warbler *Iduna opaca*  
Booted Warbler *Iduna caligata*  
Melodious Warbler *Hippolais polyglotta*  
Aquatic Warbler *Acrocephalus paludicola*  
Paddyfield Warbler *Acrocephalus agricola*  
Blyth's Reed Warbler *Acrocephalus dumetorum*  
Marsh Warbler *Acrocephalus palustris*  
Waxwing *Bombycilla garrulus*  
Wallcreeper *Tichodroma muraria*  
Spotless Starling *Sturnus unicolor*  
Rose-coloured Starling *Pastor roseus*  
Dipper *Cinclus cinclus*  
Siberian Thrush *Geokichla sibirica*  
Eyebrowed Thrush *Turdus obscurus*  
Thrush Nightingale *Luscinia luscinia*  
Siberian Rubythroat *Calliope calliope*  
Red-flanked Bluetail *Tarsiger cyanurus*  
Atlas Flycatcher *Ficedula speculigera*  
Moussier's Redstart *Phoenicurus moussieri*  
Desert Wheatear *Oenanthe deserti*  
Pied Wheatear *Oenanthe pleschanka*  
Black Wheatear *Oenanthe leucura*  
White-crowned Black Wheatear *Oenanthe leucopyga*  
Rock Sparrow *Petronia petronia*  
Snowfinch *Montifringilla nivalis*  
Citrine Wagtail *Motacilla citreola*  
Olive-backed Pipit *Anthus hodgsoni*  
Common Rosefinch *Erythrina erythrina*  
Bullfinch *Pyrrhula pyrrhula*  
Lesser Redpoll *Acanthis cabaret*  
Common Redpoll *Acanthis flammea*  
Snow Bunting *Plectrophenax nivalis*  
Lapland Bunting *Calcarius lapponicus*  
Rose-breasted Grosbeak *Pheucticus ludovicianus*  
White-throated Sparrow *Zonotrichia albicollis*  
Black-headed Bunting *Emberiza melanocephala*  
Rock Bunting *Emberiza cia*  
Cretzschmar's Bunting *Emberiza caesia*  
Girl Bunting *Emberiza cirius*  
Yellowhammer *Emberiza citrinella*  
Pine Bunting *Emberiza leucocephalos*  
Yellow-breasted Bunting *Emberiza aureola*  
Chestnut Bunting *Emberiza rutila*  
Little Bunting *Emberiza pusilla*  
Rustic Bunting *Emberiza rustica*

Category D species (i.e. species that there is reasonable doubt that they have ever occurred in a natural state) do not form part of the Malta list and therefore are not found in the above list.

It was decided that the following species in the previous bird list should be placed in **Category D** as it is impossible to ascertain whether these were genuine vagrants or escapees:

**Egyptian Goose** *Alopochen aegyptiaca* – 1 taken at Baħar lċ-Ċagħaq on the 11<sup>th</sup> of March 1914 reported by Despott in 1914 in a newspaper *Tribuna Sport*.

**Bar-headed Goose** *Anser indicus* – 1 shot in December 1993 at San Tumas reported by Sultana (2001) who stated that the species is indigenous to central Asia and introduced in live bird collections in Europe, where some became feral and started breeding in some countries, e.g. Germany.

**Falcated Duck** *Anas falcata* – an immature male shot at Birżebbuġa on the 10<sup>th</sup> of October 1979 reported by Alfred Vassallo in a short note in *II-Merill* No. 20.

**Baikal Teal** *Anas formosa* – 1 male shot at St. George's Bay, Birżebbuġa on the 16<sup>th</sup> of April 1912 Despott (1917), who added that it was with 2 other females. The male specimen was in Despott's collection, was seen by Russell Kennedy who reported it in a short note in *The Ibis*, stating that he was informed that it was taken in 1913. De Lucca (1969) reported its occurrence in 1910.

**Eurasian Jay** *Garrulus glandarius* – single at Żabbar on the 9<sup>th</sup> of May 1916 (Despott 1917). On the 1<sup>st</sup> of August 2013, Martin Austad and Nicholas Galea, observed a Eurasian Jay at Buskett. This bird was caught on the 27<sup>th</sup> of October 2013 and had a closed ring confirming that the bird was an escapee.

The Committee decided that the **Green Woodpecker** *Picus viridis* record should be **deleted from the official Malta Bird species list** after assessing the way it was reported by Despott (1917).

Regarding new species to the list of the Birds of Malta one should refer to the above amended regulation. The MRRC may also ask for a description of other species when it deems necessary.

### Accepted Records

The following records have been discussed either during meetings of the MRRC or by discussions online. Nine species are new to the Malta Bird List. All records include the name of the observers.

**Red Kite** *Milvus milvus*: 1 on 18.11.2011 at Buskett (Ray Galea, Nicholas Galea); 1 on 14.09.2013 at Clapham Junction l/o Buskett (John J. Borg, Richard Cachia Zammit, Paul Portelli); 1 on 10.10.2013 at Buskett (Aron Tanti, Charles Galea Bonavia); 1 on 12.10.2013 at Buskett (Glenn Micallef, Joseph Dunlop); 1 on 29.09.2014 at Baħrija (Bob Hook et al).

**Common Buzzard** *Buteo buteo ssp. vulpinus* (Steppe Buzzard): 1 on 09.03.2013 at Ċumnija (Martin Austad, Nicholas Galea).

**Long-Legged Buzzard** *Buteo rufinus*: 1 on 17-18.04.2014 at Xagħra L-Ħamra and on 19.04.2014 at Comino (Raymond Galea, Edward Bonavia, Ian Balzan, Raymond Vella, Martin Austad, Nicholas Galea, Gilbert Haber, Charles Coleiro et al).

**Booted Eagle** *Aquila pennata*: 1 pale morph on 12.05.2011 at Comino (Ian Balzan, Gilbert Haber).

**Eastern Imperial Eagle** *Aquila heliaca*: 1 juv on 03.11.2015 at Buskett (Edward Bonavia, Raymond Galea, Charles Coleiro, Stephen Cilia) (**1<sup>st</sup> record for Malta**). From photographs of the bird it was carrying a tag from Austria. For further details a short paper on this bird will appear in the next issue of *II-Merill*.

**Allen's Gallinule** *Porphyrio alleni*: 1 adult found exhausted on 23.12.2011 at St. George's Bay (died the day after) (Raymond Galea); 1 adult observed and photographed on 29-31.12.2013 at Wied Ghollieqa (Nadja Tschovikov, Nicholas Galea, Martin Austad, Raymond Galea, Edward Bonavia, Charles Coleiro, David Attard, Stephen Cilia). This bird was reported present up to 12.01.2014.

**Red Knot** *Calidris canutus*: 1 juv (injured) on 02.09.2010 at Għadira (Raymond Galea); 1 adult at Għadira on 16.05.2013 (Alex Casha, Raymond Galea, Nicholas Galea, Edward Bonavia).

**Buff-breasted Sandpiper** *Tryngites subruficollis*: 1 trapped in Nov 2010 l/o Ғal Far (confiscated by police) released at Għadira on 22.04.2011 (Stanley Gatt, Denis Cachia).

**Pectoral Sandpiper** *Calidris melanotos*: 1 at Ghadira on 17.08.2013 (Raymond Galea, Aron Tanti, Charles Gauci, Victor Cilia).

**Long-billed Dowitcher** *Limnodromus scolopaceus*: 1 juv. observed and photographed from 05-25.10.2012 at Simar (Charles Coleiro, Nicholas Galea, Raymond Galea, Edward Bonavia, Raymond Vella, Ian Balzan, Martin Austad, Alex Casha, Anne Marie Austad *et al*) (**1<sup>st</sup> record for Malta**).

**Arctic Skua** *Stercorarius parasiticus*: 1 adult pale 23 miles NNE off Pembroke on 10.03.2013 (Ian Balzan); 1 adult pale 25 miles off Marsaskala on 23.07.2013 (Timmy Micallef); 1 adult pale at Għallis on 26.08.2013 (Edward Bonavia).

**Common Gull** *Larus canus*: 1 on 24.02.2011 at Marsa (Raymond Galea); 1 on 30.07.2011 at Salina (Raymond Galea).

**Little Swift** *Apus affinis*: 1 at Ghadira on 16.03.2013 (Raymond Galea, Nicholas Galea, Edward Bonavia, Aron Tanti).

**Isabelline Shrike** *Lanius isabellinus ssp. phoenicuroides* (Turkestan Shrike): 1 male observed and photographed at Comino on 20.04.2013 (Martin Austad, Nicholas Galea, Adin Vella, Anne Marie Austad) (**1<sup>st</sup> record for Malta**).

**Southern Grey Shrike** *Lanius meridionalis*: 1 on 02.05.2009 at Comino (Nicholas Galea, Steve Zammit Lupi).

**Hooded Crow** *Corvus cornix*: 1 on 06.05.2011 at Dwejra (M) (Raymond Galea, Charles Coleiro).

**Blue Tit** *Cyanistes caeruleus*: 1 on 09.12.2015 until 04.01.2016 at Buskett (Raymond Galea, Charles Coleiro, Edward Bonavia, Nicholas Galea *et al*). The bird was also ringed.

**Great Tit** *Parus major*: 1 ringed on 12.03.2011 at Simar (Joseph Mangion, Caldon Mercieca); 1 ringed on 26.01.2015 at Simar (Charles Coleiro, Edward Bonavia, Raymond Galea, Nicholas Galea, Raymond Vella, Thomas Hendry).

**Hoopoe Lark** *Alaemon alaudipes*: 1 on 08-13.04.2014 at Comino (Martin Austad, Nicholas Galea, Raymond Vella, Edward Bonavia, Charles Coleiro, Raymond Galea *et al*).

**Bar-tailed Desert Lark** *Ammomanes cinctura*: 1 on 11.11.2010 l/o Xlendi (Max Sharp).

**Lesser Short-toed Lark** *Calandrella rufescens*: 1 on 14.03.2012 at Xrobb L-Għaġin (Edward Bonavia); 1 on 01-02.04.2012 at l/o Fawwara (Edward Bonavia, Raymond Galea, Nicholas Galea).

**Pallas's Leaf Warbler** *Phylloscopus proregulus*: 1 ringed at Żurrieq on 21.04.2013 (Patrick Sammut).

**Dusky Warbler** *Phylloscopus fuscatus*: 1 at Simar on 08-13.11.2015 (Charles Coleiro, Edward Bonavia, Raymond Galea). The bird was also ringed.

**Mountain Chiffchaff** *Phylloscopus lorenzii*: 1 ringed and photographed on 17.11.2015 at Ghadira (Charles Gauci, David Attard, Raymond Vella) (**1<sup>st</sup> record for Malta**).

**African Desert Warbler** *Sylvia deserti*: 1 on 22-23.04.2010 at Miġra I-Ferħa (Edward Bonavia, Raymond Galea, Gilbert Haber, Nicholas Galea, Charles Coleiro *et al*).

**Barred Warbler** *Sylvia nisoria*: 1 ringed on 11.09.2014 at Żurrieq (Patrick Sammut).

**Lesser Whitethroat** *Sylvia curruca*: 1 on 07.02.2014 at Ċumnija (Martin Austad).

**Western Orphean Warbler** *Sylvia hortensis*: 1 male from 27.05.2010 to 06.06.2010 at Buskett (Charles Coleiro, Raymond Galea, Edward Bonavia, Nicholas Galea *et al*); 1 male from 03.06.2011 to 27.06.2011 at San Anton Gardens (Silvio Scicluna, Denis Cachia, Edward Bonavia, Martin Austad, Anne Marie Austad, Nicholas Galea, Adin Vella, Raymond Galea, David Attard); 1 male ringed on 16.04.2012 at Comino (retrapped on 20.04.2012) (John J. Borg, Nicholas Galea, Martin Austad, Mario V. Gauci).

**Ménétries's Warbler** *Sylvia mystacea* race *mystacea*: 1 ringed and photographed on 21.08.2011 at Saqqajja Rabat (Mario V. Gauci, Mark Gauci, Charles Galea Bonavia, Timmy Micallef) (**1<sup>st</sup> record for Malta**).

**Rüppell's Warbler** *Sylvia rueppelli*: 1 male on 12.03.2012 at Marsaskala (Michael Grima); 1-2 males on 13-15.03.2012 at Ħal Far (Denis Cachia, Edward Bonavia, Raymond Galea, Nicholas Galea, Adin Vella, Martin Austad).

**Marmora's Warbler** *Sylvia sarda*: 1 on 27-30.10.2010 at Comino (Raymond Galea, Victor Cilia, Edward Bonavia, Nicholas Galea). The bird was also ringed.

**Grasshopper Warbler** *Locustella naevia*: 1 ringed on 10.03.2011 at Salina (Mario V. Gauci, Raymond Galea, Nicholas Galea); 1 on 27.09.2011 at Għadira (Raymond Vella).

**Western Olivaceous Warbler** *Hippolais opaca*: 1 ringed on 01.05.2011 at Comino (Raymond Galea, Edward Bonavia, Nicholas Galea); 1 ringed on 03.05.2011 and retrapped on 05.05.2011 at Comino (Mike Beatley, John Grech, John Middleton); 1 ringed on 16.04.2012 at Comino (John J. Borg, Nicholas Galea, Martin Austad); 1 ringed at Għadira on 25.05.2013 (Raymond Galea, Nicholas Galea, Charles Gauci, Aron Tanti); 1 ringed on 02.05.2015 at Salina (Mario V. Gauci, Timmy Micallef, Charles Galea Bonavia).

**Booted Warbler** *Hippolais caligata*: 1 observed and photographed at Għadira on 17.08.2013 (Aron Tanti) (**1<sup>st</sup> record for Malta**).

**Paddyfield Warbler** *Acrocephalus agricola*: 1 at Simar from 30.10.2015 to 01.11.2015 (Charles Coleiro, Edward Bonavia, David Attard, Raymond Vella). The bird was also ringed.

**Eyebrowed Thrush** *Turdus obscurus*: 1 shot in first week of Nov 2015 at l/o Marsaskala (photos of freshly shot specimen presented through Joe Sultana).

**Rufous-tailed Scrub Robin** *Cercotrichas galactotes ssp galactotes*: 1 ringed on 06.05.2011 at Comino (Mike Beatley).

**Red-flanked Bluetail** *Tarsiger cyanurus*: 1 ringed and photographed at Buskett on 17.11.2013 (Joseph Mangion, Caldon Mercieca, Raymond Galea, Nicholas Galea) (**1<sup>st</sup> record for Malta**).

**Semi-Collared Flycatcher** *Ficedula semitorquata*: 1 male on 24.03.2012 at Chadwick Lakes (Stephen Cilia); 1 female ringed on 25.04.11 and retrapped on 27.04.11 at Simar (Charles Coleiro); 1 female ringed on 22.04.12 at Comino (John Attard Montalto, Mario V. Gauci).

**Atlas Flycatcher** *Ficedula speculigera*: 1 male ringed and photographed on 15.04.2012 at Comino (seen again and photographed on 18.04.2012) (John J. Borg, Jean Paul Farrugia, Nicholas Galea, Adin Vella, Joe Sultana) (**1<sup>st</sup> record for Malta**).

**Moussier's Redstart** *Phoenicurus moussieri*: 1 female from 13.12.2010 until at least 28.01.2011 at l/o Fawwara (Charles Coleiro, Edward Bonavia, Raymond Galea); same female from 08.11.2011 until 19.12.2011 at l/o Fawwara (Raymond Galea, Edward Bonavia, Charles Coleiro); 2 females ringed on 23.10.2011 at Comino (Raymond Galea, Nicholas Galea); 1 female from 27.12.2011 until at least 14.01.2012 at Miġra L-Ferħa (Raymond Galea, Edward Bonavia); 1 male at Miġra L-Ferħa on 6 dates from 14.11.2012 until 03.01.2013 (Charles Coleiro, Edward Bonavia, Raymond Galea, Aron Tanti).

**Isabelline Wheatear** *Oenanthe isabellina*: 1 at Dingli on 08.09.2010 (David Attard).

**Desert Wheatear** *Oenanthe deserti*: 1 male from 12-18.03.2011 at Tal-Bardan Gozo (Adin Vella); 3 (2M&1F) on 11.03.12 and 1 remaining till 12.03.12 at Miġra L-Ferħa (Charles Coleiro, Edward Bonavia, Raymond Galea, Nicholas Galea, Martin Austad); 1 male on 13.03.2012 at Ħal Far (Denis Cachia); 1 male on 14.03.2012 at Delimara (Edward Bonavia); 1 male on 23.03.2012 at Żebbuġ (M) (Charles Coleiro); 1 male on 19.03.2015 at Ċumnija (Robert Farrugia).

**Citrine Wagtail** *Motacilla citreola*: 1 juv. observed and photographed on 12.08.2012 and 15-16.08.2012 at Wied Il-Kbir Qormi (Stephen Cilia, Charles Coleiro, Edward Bonavia, Raymond Galea, Nicholas Galea) (**1<sup>st</sup> record for Malta**); 1 juv. on 10.09.2012 at Buskett (Charles Coleiro, Edward Bonavia, Raymond Galea, Nicholas Galea, Aron Tanti, Martin Austad *et al*); 1 juv. on 17.08.2013 (Raymond Galea, Victor Cilia), 3 juv. on 18.08.2013 (Denis Cachia), and 1 juv. on 20.08.2013 (Alex Casha), all at Għadira; 1 juv. on 23.08.2014 (Raymond Galea, David Attard) and 1 juv. on 26.08.2014 at Għadira (Aron Tanti) were possibly the same bird; 1 juv. on 18.09.2014 at Għadira (Raymond Vella).

**Olive-backed Pipit** *Anthus hodsgoni*: 1 ringed on 22.10.2011 at Mt. St. Joseph (Justin Vassallo); 1 ringed at Saqqajja Rabat on 10.11.2013 (Mario V. Gauci, Raymond Galea, Nicholas Galea, Charles Galea Bonavia); 1 ringed at Buskett on 20.11.2013 (John Attard Montalto); 1 at Buskett on 17.03.2013 (Stephen Cilia); 1 ringed on 23.11.2014 at Buskett (John Attard Montalto).

**Common Rosefinch** *Carpodacus erythrinus*: 1 ringed on 12.09.2013 at Għadira (Charles Gauci); 1 ringed on 01.10.2014 at Mgarr Ix-Xini (Adin Vella).

**Cirl Bunting** *Emberiza cirlus*: 1 trapped in Nov 2010 at Għarb (confiscated by police) released on 20.11.2010 (Joe Sultana); 1 male on 23.12.2014 at Taċ-Ċawl Rocks Gozo (Annalise Falzon); 1 male on 26-29.09.2015 at Mgarr Ix-Xini (Adin Vella, Gilbert Haber, Nicholas Galea, Stefan Azzopardi, Alex Casha).

**Yellowhammer** *Emberiza citronella*: 1 on 26.10.2007 at Comino (Raymond Galea, Gilbert Haber); 1 trapped on 15.11.2014 at San Lawrenz (G) (reported by Gilbert Haber).

**Little Bunting** *Emberiza pusilla*: 1 ringed on 01.11.2010 and seen again on 03.11.2010 at Għadira (Charles Gauci); 1 ringed on 18.10.2012 at Comino (Joe Sultana, Benjamin Metzger); 1 ringed on 21.10.2014 at Għadira (Charles Gauci, Nicholas Galea, Raymond Galea, Edward Bonavia, David Attard, Raymond Vella *et al*)

### **Rejected Records**

The following records have been discussed during meetings of the MRRC and rejected as they were not felt to have had sufficient evidence to be accepted under the criteria of the AERC and the MRRC. In some cases, submissions with the descriptions were sent to experts abroad for their comment before a final decision was taken. The submitters and the reasons for refusals are not included in this report.

**Sooty Shearwater** *Puffinus griseus*: 1 on 18.07.2009 at Għallis.

**Manx Shearwater** *Puffinus puffinus*: 1 on 15.02.2005 at Qawra.

**Lesser Crested Tern** *Sterna bengalensis*: 1 on 11.01.2009 at Birżebbuġa.

**Sabine's Gull** *Xema sabini*: 2 specimens in private collections (Dec 2005 – off Wied Il-Għajn, and late Sept 2007 off Marsaxlokk).

**Caspian Gull** *Larus cachinnans*: 1 2<sup>nd</sup> cy at San Luċjan on 24.03 & 28.03.2008.

**Egyptian Nightjar** *Caprimulgus aegyptius*: 1 on 19.10.2009 at Rabat.

**Iberian Chiffchaff** *Phylloscopus ibericus*: 1 heard on 15.03.2011 at Simar; 1 at Rabat on 11.11.2012.

**Rüppell's Warbler** *Sylvia rueppelli*: 1 male on 16.03.2012 at Addolorata Cemetery.

**Grasshopper Warbler** *Locustella naevia*: 1 at Comino on 21.04.2008.

**Olivaceous Warbler** *Hippolais pallida/opaca*: 1 at Luqa Airport on 28.05.2012.

**Rose-coloured Starling** *Pastor roseus*: 1 at Saqqajja Rabat on 14.12.2014.

**Semi-collared Flycatcher** *Ficedula semitorquata*: 1 male on 15.05.2011 at Saqqajja Rabat; 1 female at Għadira from 30.09.2011 to 04.10.2011.

**Siberian Stonechat** *Saxicola maurus*: 1 male on 16.03.2012 at Comino.

### **Pending Records**

The following is the only record which was submitted to the MRRC but was not yet discussed. This will be dealt with at the next meeting.

**Caspian Gull** *Larus cachinnans*: 1 2<sup>nd</sup> cy at Salina on 02.04.2015.

### **Records in the public domain**

During these past five years, a number of rarities seen by the same observers have been in the public domain either in the press, online or in birding journals. During a Committee meeting it was decided that such records, although not officially submitted to the MRRC, will also be discussed. The following records were discussed:

**Ruddy Shelduck** *Tadorna ferruginea*: 1 female reported in the *Times of Malta* on the 25<sup>th</sup> of February 2015. Due to the fact that this species is regularly found in captivity, the Committee could not exclude the possibility of the bird being an escapee.

**Dwarf Bittern** *Ixobrychus sturmii*: 1 shot at Wied ix-Xoqqa, Birżebbuġa on 16.11.2010. Reported in *British Birds* 104: Aug 2011 pg. 469. Although the Committee confirms that the stuffed bird in the article is this species, there is no proof that the bird was taken in Malta (see note at the end of this report on the importation of skins and carcasses of birds).

**Allen's Gallinule** *Porphyrio alleni*: A pair breeding in Malta in July 2014. Reported in *Dutch Birding* 36: 327-330, 2014, in the *Times of Malta* on the 29<sup>th</sup> of October 2014 and in *British Birds* 108: Jan 2015. The Committee felt that such a landmark first breeding record for the Western Palearctic should be accompanied by some form of hard evidence such as photos or videos. It was noted that the only photos published with this article were of the adult Allen's Gallinule which was present at Wied Ghollieqa in Dec 2013 and Jan 2014.

**Lesser Yellowlegs** *Tringa flavipes*: 1 at Riviera Martinique on 22.05.2015 reported in *Dutch Birding* 37: 333, 2015. The Committee was not convinced that the photo published was actually taken in Malta.

**Great Tit** *Parus major*: 1 reported in the *Times of Malta* on the 25<sup>th</sup> of February 2015. The Committee was not convinced that the photo published was actually taken in Malta.

In the near future the MRRC will be discussing all records of rarities, which were not submitted to the MRRC, but were published in ornithological journals, books or on social media.

The following records appeared in social media and were **accepted** by the MRRC:

**Herring Gull** *Larus argentatus*: 1 on 31.12.2014 at Pt. St. Elmo (Michael Sammut).

**Southern Grey Shrike** *Lanius meridionalis*: 1 ssp *elegans* at Għajn Tuffieħa on 03.05.2013 (Michael Sammut).

Both birds were photographed.

#### **Importation of skins and carcasses**

An increasing number of hunters are organising hunting trips abroad and then are importing bird skins and carcasses for the large number of mounted bird collectors. Although a few of these hunters are being caught by the relevant authorities, the vast majority are not. In recent years, there has also been an increase in the importation of birds (both dead and alive) and some of these are claimed to be taken in Malta either to fetch more money from collectors or for prestige. Unfortunately some of these have even appeared in print.

#### **Acknowledgements**

I would like to thank all local and foreign birdwatchers who submitted records with descriptions and photos to the MRRC. I would also like to thank Raymond Galea (the MRRC Chairman) and all the other members in the Committee for examining in detail all submissions and for all the interesting discussions and comments that followed. I would also like to thank the following international experts who also gave their views on a number of records: Nicola Baccetti, Javier Blasco Zumeta, Klaus Malling Olsen, Lars Svensson, and Pierre Yésou.
