- What is Turnitin?
- How does Turnitin work?
  - Tutor sets up Turnitin Assignment activities (Draft & Final) in the relevant UoM VLE areas

A system allows for uploaded reports to a designated space through Turnitin before submitting the final version for marking in general

- reports will be generated on source types
- displaying reports on source

- Turnitin does not necessarily detect *all* unoriginal material

- What is Turnitin?
- How does Turnitin work?
    - Tutor sets up Turnitin Assignment activities (Draft & Final) in the relevant UoM VLE areas

Senate's decision, May 2011

Students should be allowed to scan their assignments *once* through Turnitin before submitting the final version for assessment purposes.

    - Submit your assignment or dissertation
    - Originality report is created

- Turnitin does not necessarily detect *all* unoriginal material
