

Bachelor in Occupational Health and Safety (Honours)

5 years Part-time Evening | MQF Level 6

Bachelor in Occupational Health and Safety (Honours)

UNDERGRADUATE PROGRAMME
MQF Level 6

DURATION
5 years Part-time Evening

Due to legal obligations, as well as for financial and moral reasons, occupational health and safety is a highly relevant topic for organisations. As this area of specialisation continues to develop, the need for qualified and skilled professionals in this area continues to increase. The programme of studies adopts an inter-disciplinary approach, including perspectives from occupational safety; health and safety law; occupational health; psychology; management; ergonomics; sociology; toxicology; environmental health; health promotion; statistics and research. The curriculum provides students with the necessary knowledge and skills to work in the capacity of an occupational health and safety professional.

Students who successfully complete 90 credits and do not continue the course will be awarded a **Diploma in Occupational Health and Safety**.

Accredited Programme

ENTRY REQUIREMENTS

- › General entry requirements
- › Individuals can also apply via the 'maturity (adult learners) clause'
- › Individuals who have already obtained related diplomas can apply to have credits transferred to the course.

For more information about the maturity clause and the transfer of credits, please view the detailed entry requirements on the UM website or contact us on cls@um.edu.mt

How has the course affected your career?

This course helped me widen my knowledge about the occupational health and safety industry. The course is highly informative and can be used as a base for further specialisation in different fields.

Why should students enrol in the Occupational Health and Safety course?

There is a high demand for health and safety practitioners, particularly when you consider that such a role is required for every workplace. My motto is "Our job is to ensure that you go home safely after yours."

BRIAN FENECH

Occupational Health and Safety Practitioner and Business Owner

How has the course affected your career?

The Occupational Health and Safety course broadened my knowledge, allowing me to consider hazards from different perspectives. It allowed me to deepen my investigations, thus safeguarding occupational health and safety.

Why should students enrol in the Occupational Health and Safety course?

I recommend this course since locally there is a high demand for qualified people in the field. I encourage also females to read for this course, who can contribute to the Occupational Health and Safety of workers and improve the work conditions of their work colleagues.

ELIZABETH SHARON SALIBA

Occupational Health and Safety Officer
