

Using Import in the VLE

The **Import** feature allows tutors to copy study material from one VLE area to another. *Import* copies all the files, resources and activities that the tutors have set up for students, except for submissions made by students, such as assignments, forum posts etc.

Note:

- Unlike the VLE Copy Tool, the *Import* feature does not override any material already present in the VLE area. Imported material is merged with that already available.
- *Import* also allows tutors to copy just parts of a VLE area rather than the whole area.

1. Access the *destination* VLE area where you want to copy the material *to*.
2. Click the **More** tab from the tabular navigation menu beneath the VLE area name.
3. Choose **Import / Backup / Restore**.

The *Import / Backup / Restore* page is displayed.

4. Click **Import**.
5. Within the *Course selection* page, select the VLE area *from* which you want to copy material. Use the **Search** tool if the area is not listed.

Find a course to import data from:

Select a course	Total courses: 3	
	Course short name	Course full name
<input checked="" type="radio"/>	ABC1234-YR-A-2425	ABC1234-YR-A-2425: Introductory course
<input type="radio"/>	ABC1234-YR-A-2324	ABC1234-YR-A-2324: Introductory course
<input type="radio"/>	EXA3000-YR-A-2425	EXA3000-YR-A-2425: Dissertation

Search courses **Search** **Continue**

6. Click **Continue**.

7. In the *Initial settings* page, ensure that all the item types you want to copy are ticked, and click **Next**.

1. Course selection ▶ 2. Initial settings ▶ 3. Schema settings ▶ 4. Confirmation and review ▶ 5. Perform import ▶ 6. Complete

Note:

- Remember to rearrange the activities that you have imported.
- *Import* will copy the **Lecture Capture (Panopto)** and **Zoom meetings manager** activities but will **not** copy the recordings.

Tutors are required to manage their lecture recordings in a manner that is compliant with General Data Protection Regulation (GDPR). If you plan to re-use lecture recordings (e.g., Zoom, Panopto) that feature student participation (e.g., student audio, video, name), it is understood that the participating students have been informed and consented that the lecture recording can be re-used with other student cohorts.

To copy and move recordings in Panopto, refer to the [Copying and moving recordings \[PDF\]](#) guide.
