Subject: Immersive Reader in Maltese

Date: 8 April 2025

MATSEC and the Access Disability Support Committee (ADSC) would like to note that the computer-based reader for the Maltese language will not be available during this session or in the near future. This is due to the fact that the technology requires an internet connection, which presents security concerns in the context of examination conditions.

In line with established regulations, candidates who are eligible for a reader in Maltese-based non-language subjects will be provided with a human reader.

MATSEC and the ADSC will continue to review this matter and will provide updates as necessary.
