

**From:** Mr Dario Pirotta  
Director, MATSEC Support Unit

**To:** College Principals  
Heads of School

**Subject:** SEC 39 Information Technology Syllabus Update

**Date:** 18 June 2020

---

The 2022, 2023, and 2024 SEC 39 Information Technology syllabi have been updated as follows:

- Unit 2 – K2 – MQF 1; C2 (page 25): '*dpi*' has been added as a unit linked to the resolution of images.
- Unit 2 – K5 (page 26): *Aspect ratio, frame dimensions, and duration (length)* have been added to the examples of video characteristics.
- Unit 2 – K5 MQF 2 (page 26): The video file types are no longer listed as examples, but an '**or**' indicates that assessment at this level will be related to one file type only.

Please ensure that these changes are brought to the attention of teachers and internal verifiers, and reflected in assessment accordingly.
