

The Karl Vella Foundation Educational Support Programme: Teacher-Tutors' & Caregivers' Insights

Dr Tania Muscat (DECPE) & Dr Jonathan Borg (DIAL)
Faculty of Education

MISSION

The Karl Vella Foundation provides free educational and emotional support to children aged 5-17 and their families facing serious illness or bereavement.

AIM

To explore how the KVF Educational Support Programme aids children's learning and how it can be improved.

METHODOLOGY

- Semi-structured interviews
- 5 teacher-tutors & 5 caregivers
- Thematic Analysis

KEY FINDINGS

TEACHER-TUTORS' PERSPECTIVES

Free and personalised academic support benefits students.

Online learning increases **accessibility**.

Communication and coordination between tutors, families, and schools is needed.

CAREGIVERS' PERSPECTIVES

The programme improves children's **confidence**.

Flexible delivery is highly valued.

Parents often have to manage technical and learning support during online sessions **themselves**.

CONCLUSION

The KVF Educational Support Programme plays an important role in maintaining **educational continuity** while supporting **children's wellbeing**.
