

Procedure for hiring a locker

The ESE laboratory is offering lockers for rental to students wishing to avail themselves of this facility.

We highly recommend that each student makes good use of this service, since as explained in the Toolkit circular, access to these lockers is most useful when working in the laboratory.

Unfortunately we no longer offer the option of sharing lockers since this idea did not work well at all!

The cost of hiring a locker is minimal: A one-time €5 registration fee – applicable to first-time users only and thereafter, €5 per semester.

You will need to provide your name, email address and mobile number to the laboratory officer who will subsequently provide you with a key. Please also make sure to renew your subscription at the beginning of the second semester. If you decide to stop using the locker, please return the key accordingly.

If you decide to keep your locker until the end of the academic year, please return the key by not later than the 30th July.

It is your responsibility to keep the lockers clean and in good order - so damage that is clearly due to misuse, will have to be paid for.
