

# A GUIDE TO COMPILING THE LOG OF LEARNING

DEPARTMENT OF NURSING

## SCOPE

### LOG AND CAPTURE YOUR LEARNING EXPERIENCE DURING THE COVID-19 PANDEMIC

#### Column 1: Period of learning experience

In this column you can either put in a specific date or a specific timeline- this will depend on the nature of the activity/practice (learning experience) you are engaging in

#### Column 2: Briefly describe the practice

Explain the activity/practice relating to nursing care/healthcare delivery and support you took part in. Examples of activities/practices include:

- Voluntary activity which was sought or achieved
- Employment with healthcare organisations
- NGOs
- Care of individuals and/or small groups (such as neighbours, extended family)

#### Column 3: Identifying the learning experience

In this column please elaborate on the learning you have gained by engaging in the activity/practice identified in column 2. Details can be listed in point form and should not exceed 200 words for each identified activity/practice

#### Column 4: Provide evidence to support learning

Where possible submit evidence that supports the identified activity/practice. Evidence can include (but not limited to):

- a testimonial
- a reference
- signed attendance sheets
- an email from the person responsible for you during the identified activity/practice

Naturally, this evidence, will be collected towards the end of the activity/practice. It is understood that it will be difficult to obtain evidence in certain activities/practices and in such cases you just need to explain why you couldn't obtain the evidence
