

M.Sc in Cybersecurity Timeline

Kindly note that the below dates are subject to change and concrete dates will be published at the beginning of each academic year in a separate document.

First year

End of September - Beginning of October

Start of lectures

End of January - Beginning of February

Semester 1 examinations session

April

Students are encouraged to start seeking with whom they will be carrying out their placement. Forms and guidelines on identifying the goals and assessment criteria will be available in due course.

June

Semester 2 examinations session

Mid July

Students to submit a form identifying their placement hosting entity, the tasks they will be performing, and the assessment criteria which will be evaluated by the Board of Studies.

End of July

The Board of Studies notifies students regarding their placement unit.

First two weeks of September

Resit assessment session

Second year

End of September - Beginning of October

Start of lectures & Placement

End of January - Beginning of February

Semester 1 examinations session

April

Students to submit a dissertation proposal.

End of July

Dissertation proposals and supervisors are approved by the Board of Studies.

First two weeks of September

Resit assessment session

Third year

End of January

Students to submit a free format progress report which consists of a one (1) to two (2) pages report, illustrating any changes in direction and/or work done on prior Panel of Supervision feedback.

April

Final opportunity for students to submit requests for changes in MSc dissertation titles. Students should have already started to submit first drafts of their dissertation chapters directly to their respective supervisors for feedback and corrections.

May

Students to submit an electronic copy of their dissertation.

Mid-June - End of July

Viva voce exams for the student dissertations.

September

Submission of Hard Bound Copies.
