

PHR 4220 CHEMISTRY PROJECT

The Pharmacy Department Symposium Computer Presentation

5-minute oral presentation

The oral presentation should be prepared in Microsoft Powerpoint format and should include 5 slides excluding the title slide. The presentation should be sectioned as follows:

Project title

Aims

Methodology

Reflections

Efforts should be made to ensure presentation clarity as follows:

Use of simple fonts (Arial/Times New Roman)

Use of sufficiently large font size (24, Bold, Double Spaced)

Use of dark background; and avoid the use of too many colours

Judicious use of upper and lower case fonts for emphasis and content segregation

Presentation of one theme per slide

Not crowding slide with high density font and graphics

Phrases preferred over complete sentences

Round integers to the nearest whole number

Limit table size and label graph axes clearly and correctly

All graphs, figures and tables should be clearly captioned

Embedded videos should not exceed 20 seconds duration

The presentation must be submitted on respective VLE area in pdf with surname, name of student and course.
