

Company Profile: Methode Electronics Malta.

Our presenter Noah Agius went round the company which was featured on this episode.

Methode Electronics Malta Ltd. is a full service switch supplier designing and manufacturing electromechanical and electronic controls, sensors and switch devices for Original Equipment Manufacturers (OEMs) worldwide. Major customers include General Motors, Ford, Jaguar, Mazda Volvo, BMW, Rover, Alfa Volkswagen, Audi, Aston Martin, MG Rover and Saab.

Methode Electronics designs, manufactures and markets devices employing electrical, electronic, wireless, sensing and optical technologies. Methode's components are found in the primary end markets of the automotive, communications, aerospace, rail and other transportation industries; and the consumer and industrial equipment markets.

Methode Electronics Malta Ltd is managed on a technology product basis and has evolved into an organisation that carries out research and development, product and tool design, rapid prototyping and laboratory services. Our manufacturing processes include plastic injection moulding, stamping and plating, ultra-sonic welding, tool making and other semi as well as fully automated assembly processes.
